

28 KILLED IN STORM AND FLOOD CITY ACTS IN BLOCKADING OF CROSSINGS

AUGHERTY ACCUSED AS CROOKS' AID

Large Made Against Ex-Attorney General by Witness Before Probers

NEW DEAL HINTED

Prosecution of Frauds Blocked, Says Former Special Investigator

WASHINGTON — (Associated Press)—One more public session of a senate Daugherty investigating committee was held Saturday but an executive session of its members was held for Monday to consider the question of the inquiry's duration and direction. The sentiment of committee members as developed Friday's resignation of the attorney general, was that a way had been opened for curtailing if not concluding the flow of charges which is run thru the proceedings.

A general charge that the "department of justice is functioning as an aid to crooks," made to Daugherty by H. F. Searle, a former special investigator in government employ, at a hint of another session, was "dead" were the high spots in Saturday's public hearing. W. J. Burns, head of the bureau of investigation, as excused to wait on the committee's executive session Monday.

The question of access to the department's files, which the committee sought from Daugherty and which he refused, was settled for the present by its decision to grant the request. Acting Attorney General Beck at the matter had been left open until the head of the department takes office.

ILLEGAL FRAUDS

Searle's story, which had wide ramifications, indicated that he had been "blocked" in attempting to bring about prosecutions for alleged airplane frauds. Going to Thomas E. Elder, a friend of Daugherty, with his story, he said, an interview with the former attorney general was arranged at which he presented charges to a non-prosecution of frauds against the government.

The matter was dropped, he added, after the elder wrote him a letter tendering him "a retainer in the Bosch Magneto case." This case, he asserted, involved a concern "seized by the alien property custodian during the war and sold for a grossly inadequate sum" to Martin Kern, identified as "a friend of A. Mitchell Palmer," then alien property custodian.

Hornblower and Weeks, a Boston banking firm for which Senator Jones, Republican, Washington, said Secretary of War Weeks "retired some years ago," was named as being a factor in the Magneto concern sale and reorganization.

APPOINTMENTS SOUGHT

Nicholas Cimino, a New York restaurant man, told of "interceding" with Howard Mannington, a friend of Daugherty, in an endeavor to obtain appointments, but especially and repeatedly denied suggestions that money had been passed.

He told likewise of approaching Mannington with a request to "get in on" the granting of permits to withdrawals of whiskey, and of being sent by Mannington to W. A. Orr, who has also figured in the stories of whiskey "deals."

Cimino overheard a statement that H. Mortimer got the \$100,000 that was involved in another supposed whiskey transaction.

Senator Wheeler, Democrat, Montana, the committee's prosecutor, was absent from the day's session, because of illness.

TRAIN IS WRECKED

Tower Demolished When Limited Leaves Track in Indiana

DANVILLE, Ill. — (Associated Press)—The Chicago and Eastern Illinois Dixie Limited northbound was wrecked Saturday afternoon at 4:20 at Cayuga, Ind., 18 miles northeast of here, when the engine struck a derail which protected a flower leaf passenger train standing on the crossing.

The engine struck and demolished the interlocker tower, the mail car was thrown crosswise of the track and the baggage and smoker were derailed. The remainder of the train remained on the rails. The engineer, John Carson of Cayuga, was killed. The train was wrecked by a derailed passenger train standing on the crossing.

The engine struck and demolished the interlocker tower, the mail car was thrown crosswise of the track and the baggage and smoker were derailed. The remainder of the train remained on the rails. The engineer, John Carson of Cayuga, was killed. The train was wrecked by a derailed passenger train standing on the crossing.

Ada School Boy Is Human Fly

ADA — (Special) — Dick Street, 14, an Ada school-boy, is a human fly. He has a mania for scaling building fronts and he can't resist climbing a water tower that is 160 feet high. Recently he scaled the Lehr Memorial building at Ohio Northern university and stood on his head on the coping. Saturday he scorned using the ladder to climb the water tower and went up from girder to girder.

Dick's ambition when he grows up is to be a professional human fly. When a well-known human fly scaled the Hotel Young the other day, Dick laughed and said he could do better. He attempted it.

MAY PICK CABINET MEMBER MONDAY

Coolidge Prepares To Name Successor To Daugherty

WASHINGTON — (Associated Press)—Turning to consideration of a successor to Harry M. Daugherty as attorney general, President Coolidge Saturday set about determining the type of man he will seek to fill the second cabinet vacancy of his administration.

This question first will be settled by the president and it almost solely was considered by the chief executive Saturday in his thought of a successor to Daugherty. The president expects to have this worked out in his mind by Monday and then he will turn to the list of those he has noted down mentally since it became evident to him that the portfolio would have to be filled sooner or later.

The list of those to which the president probably will go in seeking a new attorney general to meet the requirements determined upon, is large. White House officials refused to give any inkling as to those on the list but from many sources it was learned that it includes Secretary Hughes, Senator Borah of Idaho, Marlan F. Stone of New York, Chief Justice Arthur P. Rugg of the Massachusetts supreme judicial court, Judge William S. Kenyon of Iowa, Governor Alexander J. Grobeck of Michigan and Senator Pepper of Pennsylvania.

POOL ROOM SCENE OF RUM RAID

Sheriff Crosson Gets Supply Of Alleged Moonshine

Evidence in the form of a quantity of all-moonshine in each of four fruit jars was seized Saturday night when County officers led by Sheriff Harry Crosson raided a pool room conducted by Louis Valles, 30, Italian, 144 W. Fourth-st.

Valles was not arrested but an affidavit will be filed against him Monday in probate court if Judge J. H. Hamilton believes evidence found is sufficient to convict. Sheriff Crosson stated after the raid.

Valles' place was thronged when officers entered and commenced their search. Several men in the place were apparently under influence of liquor. Sheriff Crosson believes that they obtained their whiskey in the pool room, which he believes might account for the small amount of alleged liquor in the four jars.

An indictment against Valles was found by the last grand jury on charges of receiving and concealing wine stolen from Tony Oliver's place. He is out on \$500 bond, awaiting trial. Pete Oper, indicted on the same charge, is in jail unable to get bond.

POLICEMAN SLAIN

Youngstown Officer Shot While Attempting Arrest

YOUNGSTOWN — (Associated Press)—Patrolman George Leonard, shot by a negro whom he tried to arrest in a downtown store here Friday died in a hospital Saturday evening. The negro, Joseph Desdell, Friday night of a fractured skull suffered when Patrolman William Leonard, brother of the dead officer, clubbed him after the shooting.

FOUND NOT GUILTY

NEW YORK — A federal jury Saturday night acquitted J. Harry Foley, state superintendent of weights and measures of New Jersey; Mayor Herbert I. Kats and the Paterson Brawling and Maltng Co. on charges of bribery and conspiracy to bribe federal agents to permit the manufacture of liquor and beer in New Jersey.

STORE ROOM, APARTMENTS ARE PLANNED

Crawford Shoe Store Will Build Addition on Present Site

MANY PERMITS

Michael & Fishel to Start Large Terrace on N. Main-st

Announcement of a \$20,000 addition to the Crawford Shoe store, 138 N. Main-st, and erection of a two-story, eighty-four-room apartment house at N. Main and Hall-st at an estimated cost of \$55,000, Saturday swelled construction totals during the month to \$264,000.

Paul Crawford, of the Crawford Bootery, thru arrangements with Walter DeKalb, architect, has awarded L. K. Jacobs the contract for erection of a 60-foot addition to the store with a modern basement and for a new 21-foot front with double entrance doors.

Excavation work on the Hall-st and Main-st apartment is to be started Monday by Orr and Miller, contractors. Michael-Fishel, realtors, announced Saturday. The two-story structure is to contain 14 modern apartments of five rooms each with monthly rental aggregating \$30 for each apartment.

Increased construction activities over March of 1923 was reported at city hall with issuance of 87 permits for erection of houses, garages and factory buildings. Total permits aggregated \$264,000.

Building of houses is generally distributed within the city with the boom extending to all portions. Houses under construction average approximately \$3,000, according to the permits.

Orr and Miller, contractors, report progress on the new \$25,000 Buick garage on W. Market-st and construction of the \$60,000 apartment house proposed at Main-st and Circular-st will start in two weeks, according to Ross E. Mullin, architect. The apartment house plans call for 18 modern apartments containing 82 rooms.

Purchase of 10 acres of land at a cost of \$25,000 has been reported by R. R. Truhey. Land is to be divided into lots with expansion of the Ateratt Sign Co., located on the D. T. & I. railway, and sold to employees.

Construction of the \$40,000 factory building will start on May 1. Promoters of the project are now engaged in improvement of the site by installations of sewers and water mains.

April 10 is designated by officials as the opening of the Rarant Oil Co. lubricating plant or grease factory on the Pennsylvania railway between Charles and Jameson-sts. Approximately 10,000 pounds of grease is the 1924 output expected by company officials from the factory erected at a cost of \$25,000.

Improvements at the Crawford store brought announcement of incorporation of the company for \$75,000 and admission of R. W. McCauley to the firm. A hosiery department is to be installed in connection with the improvements.

The addition provides for a children's department and general offices at the rear of the store with a shipping room at the alley and a separate shoe and hosiery department in the basement. The interior of the store is to be renovated. New cases are to be installed and electric lights, new glass cases and at the entrance plans provide for greatly improved display.

DOHENY!

The magic name of the oil fields! The magic name in politics. Who is E. L. Doheny, focal point of the Senate oil investigation? What manner of man is he? What does he think? Doheny has told this in his own words. His story will appear in The Lima starting tomorrow. It is called:

How I Made My Millions

PUBLISHER

Lord Northcliffe's successor as the owner of the biggest string of British newspapers is his brother, Viscount Rothermere (above). He is in this country for a visit.

NEW REGULATIONS UP MONDAY

Building Code and Zoning Ordinance Before Commission

Decisions as to whether the city will adopt a building code and zoning ordinance will be reached Monday night at commission meeting with expected report of the building and zoning commission headed by Ralph Austin.

After two years of inaction the commission has declared its intention of adopting a definite plan—enactment of laws to regulate building or tabling of both measures with little chance of their revival.

Commissioner Harold Cunningham who sponsored the movement last Monday night for a show down of the commission lives up to expectations, he will urge the drafting of legislation, otherwise he favors discontinuance of further discussion.

Both measures are synonymous in effect and in event the commission will procedure a possibility exists that one ordinance may cover both the building and zoning regulations.

Building regulations provide for uniform building thruout the city with municipal officials supervising all construction. The law tends to eliminate ramshackle construction and lessens fire hazards.

Zoning regulations constitute the paramount need in this city, according to officials who claim a stringent law protects residential districts, maintains a price standard for real estate and segregates manufacturing plants and dwellings.

Building and zoning legislation was introduced last year by City Manager C. A. Bingham and referred to a special commission for investigation after objections had been voiced by property owners who stated that the measure, especially the building code, was prohibitive instead of beneficial as intended by officials when the measure was drafted.

REGISTRATION DAY IS APRIL 11

Voters Ballot On Presidential And State Nominees

Preparations are under way by the Allen-co election board for holding registration for the presidential primary on Friday April 11. Voters of both major parties will cast ballots for choice for president, April 29.

Hours for registration will be from 8 a. m. to 2 p. m. and from 4 p. m. to 9 p. m. For those who are not in city in the regular day, registration will be held by order of the board on April 26 from 11 a. m. to noon and on April 28 from 1:30 p. m. to 5 p. m. at the board offices in the Holmes-bldg.

Transfers will be issued on registration day and Monday on April 22 at the regular polling places in each precinct. Election day polls will open at 5:30 a. m. and close at 5:30 p. m. Beside voting on presidential nominees and state delegates, the \$55,000 bond issue to build bridge at the west end of Kibby-st will be before the people.

WARRANT FOR TRAIN CREW IS ORDERED

Commissioner J. J. Rankin Leads In Offense on Railroad Workers

MANY PROTESTS

Letters to Rail Heads Do No Good, Officials Announce

Campaign waged by city officials against blockade by trains of railroad crossings, culminated Saturday in the issuance by Police Inspector George Strick of an affidavit against A. L. Marker, Huntington, Ind., Erie trainman.

Affidavit was filed in criminal court after Commissioner John J. Rankin protested against blockade of Greenlawn-av for 13 minutes from 7:45 a. m. Saturday to 7:58 a. m. by a double header train of the Erie railway.

"Greenlawn-av crossing blockades were almost daily occurrences and the only way to teach train crews that Lima has a law, is to bring them into court," Commissioner Rankin said.

Wholesale arrests of train crews of the Pennsylvania railway, Baltimore and Ohio and other utilities blockading street crossings is threatened by officials whose efforts with public utilities officials have resulted only in a flood of communications.

On Tuesday night, March 18, a Pennsylvania train blocked traffic for 55 minutes at N. Main-st. Street crossings were interrupted and inconvenience to motorists and pedestrians resulted in a request by Manager C. A. Bingham on R. H. Pinkham, P. Wayne division superintendent, for compliance with the city ordinance which prohibits blockades of crossings for more than five minutes.

North side residents deplore the inaction by city officials in arresting train crews disregarding the city crossing law, it is said. Blockades, they insist, are frequent at Elizabeth-st, Jameson-av and at other streets along the Pennsylvania right-of-way.

Conditions at Main-st crossing of the Pennsylvania forms the nucleus for a majority of the trouble, according to officials, who claim blockades there are almost nightly and in some cases with train crews evincing no apparent desire to observe the maximum time limit.

Trouble with other utilities with blockades frequent at E. High-st, E. North-st and Main-st, with Greenlawn-av, considered one of the worst, adds to officials' troubles with demands received every week from residents for arrest of train crews.

Continual exchange of communications with railroad officials has brought no apparent betterment and in the showdown that is to be forced by Commissioner J. J. Rankin, he will demand the arrest of all train crews on trains obstructing crossings.

In event of fires the city would be censured if fire fighting apparatus were halted and great damage caused to buildings," Commissioner Rankin said. "Sufficient warning has been given and I favor court action as a cure."

TWO WORKERS ARE KILLED IN SNOW SLIDE

PROVO, Utah — Mark Hyslop and Don Allred, both of Provo, were killed Saturday when they and forty-eight others were caught in a snow slide at Brigal Falls, in Provo canyon east of here. The bodies of Hyslop and Allred had not been recovered up to early Saturday night.

The slide occurred as a crew of about 100 men were clearing debris from the automobile road.

WEATHER

WASHINGTON — Weather outlook for the week. Ohio Valley—Fair and much cooler at beginning, fair and warmer thereafter except rains are probable Wednesday or Thursday.

Region of Great Lakes—Snow and colder at beginning, considerable cloudiness with temperature below normal thereafter, with probability of snows and rains Wednesday or Thursday.

IN HOTBED

Frank Morales, once a member of the Atlantic City (N.J.) fire department, is the American minister in Honduras. His pluck during the recent revolt has been lauded by officials in Washington.

SUB CONTRACT ON SEWER PLANNED

Lima Company to Get Contract Work on Job

Sub contract of \$150,000 to the State Construction Co., Lima, on the Jones intercepting sewer contract signed Saturday afternoon by Haddad-Kairal Construction Co. may be let for concrete work before work is started on the \$315,000 contract for completion of the whole project.

Members of the firm of Haddad-Kairal at city hall Saturday afternoon admitted that negotiations are under way whereby the Lima concern looms as the leading bidder for concrete work.

The State Construction Co. with a bid of \$300,000 was the lowest of seven bidders on the Jones job. Failure of the company to submit a financial statement satisfactory to city officials eliminated their bid and upon recommendation of City Manager C. A. Bingham the contract was awarded to the Cleveland concern.

The report current in Lima is that the State Construction Co. is the McHugh-Cole Co. engaged for months on the Main-st sewer job.

BOND IS SIGNED
Contract for the Jones job and a 100 per cent bond of \$315,000 was signed Saturday afternoon in City Manager Bingham's office by the Haddad-Kairal Co. officials upon approval of the bond by Solicitor Paul T. Landis.

Bond for complete cost of the work is carried by the Union Indemnity Co., a \$5,000,000 corporation, with headquarters at New Orleans. The T. A. Collins agency and Glen C. Webb wrote the bond.

Bond and contract comes up for approval Monday night at commission meeting with expectations that it will be approved and signed Tuesday by City Manager Bingham and Mayor Earl Moser.

Arrangements have been completed by the Haddad-Kairal construction Co. to start work at four places along the route of the proposed sewer which is one of the main arteries in the 7,000,000 project outlined to meet demands of a city of 100,000 population.

Machinery is to be shipped here immediately after city officials approve the bond and contract and work will be started as soon as the machinery is put in position so as to complete the work within one year as specified in the contract. Contractors said Saturday before their return to Cleveland.

STATE SUPREME COURT WILL PASS ON SECTIONS OF AUTO LICENSE LAW

COLUMBUS—The state supreme court will decide whether certain provisions of the automobile license law are constitutional, following the decision of Secretary of State Thad Brown and Attorney General Crabbe to contest the ruling of Judge Kinkead of Franklin co in declaring unconstitutional the provision pertaining to trucks of more than thirty horse power.

In his decision, Judge Kinkead stipulated only trucks of more than thirty horse power pay a flat license of \$20 and eighty cents per hundred for weight of truck and capacity. Trucks from twenty-five to thirty horse power are required to pay a flat rate of \$12 and thirty cents per hundred.

On the advice of Attorney General Crabbe, Secretary Brown announced he would appeal to the supreme court and insist on an early decision. The supreme court's ruling will become the basis for future automobile license legislation, according to Secretary of State Brown.

100 INJURED; MANY HOMES ARE WRECKED

High Water and Twister Bring Death to Six In Ohio

3 TOWNS SWEEPED

Northwest In Grip of Severe Blizzard and Trains Stalled In Snow

Twenty-eight persons are dead, more than a hundred injured and property damage running into hundreds of thousands of dollars is the toll of storms sweeping thru southwest, northwest and middle western states Friday night and Saturday.

Six were killed in Ohio and 25 perished in other sections of the country. High winds, reaching proportions of a tornado, were accompanied by cloudbursts, snow and sleet in many parts. Trains were stalled in snow in the northwest and buildings swept away by floods in the southwest. Three small towns in Kentucky were reported destroyed, but the full extent of damage by the storm and flood could not be ascertained as wire communication was badly interrupted.

OHIO HARD HIT
COLUMBUS.—(Associated Press.)—With colder weather predicted for Saturday night and Sunday and no more rain fall expected, flood danger in Ohio had passed Saturday night, in the opinion of attaches of the United States weather bureau here.

At least six persons are known to be dead in the state as a result of the high water and winds and damage will run into thousands of dollars. Many cities reported the heaviest rainfall in years.

Although tributaries of the Ohio river are filled to overflow as a result of heavy rains Friday night and early Saturday, flood dangers to Ohio cities bordering on the river are considered remote by W. C. DeVore, weather forecaster at Cincinnati.

Flood waters in Hog Run creek, south of Newark caused a Baltimore and Ohio freight train to crash thru a trestle carrying four members of the crew to their death in the water. The dead are Louis Kusla, engineer, Henry F. Garner, fireman, body recovered; J. A. Bidwell, brakeman, body recovered; Ralph Powell, brakeman, body recovered. All lived in Newark.

Engineer Kusla is said to have stopped his train before reaching the 100 foot trestle and examined it. Thinking it safe to proceed he started on. It collapsed when the engine neared the center. Eight cars were dragged into the swirling current.

CRUSHED TO DEATH
Clinton Colwell, 24, was crushed to death Saturday under a concrete block garage wall on the farm of his brother, V. R. Colwell, near Defiance, during a violent wind storm, which did considerable damage in Richland.

At Akron, Frank Lake, 40, was pinned under a tree blown down during a wind storm late Saturday. He died shortly afterwards.

Roofs were torn from houses at Hillsboro, and electric light poles blown down. Wind and rain did heavy damage.

The Cincinnati and Dayton Traction Co discontinued thru service at Hamilton because of the weakness of bridges. Thirteen feet of water brought the Great Miami river nearest to flood stage since 1917.

Heavy damage was done at Springfield where the waters from Buck creek seeped into the power house of the Springfield Street Railway Co., causing a halt in street car service thruout the city. Lowlands were flooded and more than two score homes were under water. Police and firemen worked with boats to rescue the occupants.

HOMES VACATED
Several families vacated houses at Bremen, in Fairfield-co, when waters surrounded their homes. At Rushville flood waters covered the T. & O. C. railroad tracks and trains were routed by Lancaster. The south side district of Lancaster was partially covered and at Baltimore and Basil farmers were reported leaving their homes.

Swank creek at Versailles overflowed its banks and caused the greatest flood in the history of the city with the exception of 1913. Bridges to the east and west of town were submerged and traffic suspended. Rescuers in boats removed families from near the stream. The waters covered a territory almost

WAR ROMANCE IS CLOSED HERE

Court Gives French Bride Freedom From Soldier Mate

TOO MANY WIVES. CHARGE

Hero Left Family Behind, Then Married Abroad

The curtain was rung down in common pleas court Saturday on a real life drama of war romance entitled "Too Many Wives," when Andre Conrad, French bride, 226 1-2 S. Main-st., won a divorce from James J. Conrad, A. E. F. veteran.

Testimony was heard some weeks ago, and the case continued for purpose of obtaining additional testimony.

Mrs. Conrad met her soldier mate when he was serving in France, and was in Paris on a furlough.

Their meeting blossomed into a romance, and culminated in a wedding before French officials late in 1919.

Witnesses told the court Saturday that when Conrad marched away to war he left a wife and four children behind him. At the previous hearing a representative of the American Red Cross told of giving the wife aid to reach Baton Rouge, La., her former home.

At the time that Conrad was married in France, testimony disclosed Saturday, he was still married to wife, No. 1. Later she divorced him.

All was well, Mrs. Conrad told Judge Becker, until after her arrival in the United States with her husband, and learned of the former wife.

The court annulled her marriage.

DOWNING TO PAY WIFE \$4,200

Court Orders Woman To Assume Costs Of Case

Declaring that conduct of Mrs. Maude M. Downing shown in testimony points to a dead love for her husband, Judge H. A. Miller, of Celina, Saturday granted Frank H. Downing, attorney and politician, a divorce on grounds of neglect.

His decision in the case, given in the form of a lengthy oral opinion, is among the most dramatic ever handed down in an Allen-co court. He pointed to her plan to go to California, the trust in the alley, and coldness to the defendant as evidences of a dead love, if ever the wife held such for her mate.

Mrs. Downing was given an award of \$4,200 out of the \$14,000 which the court found to be the value of Downing's property. She must pay all costs of the suit from this sum, however.

Jud Downing, 12 son of the couple, will live with his mother during the school year, and with his father during vacation time. The mother will be paid \$38 a month for his support during the months he is with her. Father to get child if mother disobeys court decree.

Money award to the plaintiff will be paid in cash, immediately if possible. But if not at the rate of \$2,200 in 30 days; \$1,000 in 90 days, and the balance in 18 months. Real estate of the defendant is not disturbed.

EAGLES ARE PREPARING FOR MINSTREL FROLIC

Members of the Limaerie, Fraternal Order of Eagles, are preparing for a minstrel frolic to be presented Tuesday and Wednesday evenings, April 8 and 9, at the Faurot theatre.

Rehearsals are now well under way. The cast is made up of Lima talent, most of whom have at various times in the past entertained audiences in this city.

SOUTHSIDE BUILDING & LOAN ASSOCIATION
1226 WEST HIGH ST. LIMA, OHIO.

CHICAGO MINISTER WILL SPEAK AT LIMA CHURCH

Rev. George W. Taft, president of the National Baptist Theological society of Chicago, will speak Sunday morning at the First Baptist church on the subject, "Can America Substitute the Law Reformatory to the Electric Chair for the Open Bible, the Sunday School and the Mother Prayed?"

According to Rev. W. L. Steeves, pastor, baptism services will be held in the morning and again in the evening.

\$2,000 IS ASKED FOR CHILDREN

Child Welfare Association Seeks Aid For Playgrounds

Membership drive for the purpose of raising funds to cover expenses of operating playgrounds for the benefit of children of Lima and Allen-co will be launched April 7 by the Allen-co Child Welfare association.

In years past this branch of the association's efforts has proved to be of inestimable value to Lima kiddies, it is pointed out. Mrs. J. W. Roby is chairman of the playground committee.

The mark set for the campaign is \$2,000. Mrs. S. M. Williams, campaign manager, announced Saturday. The membership is a dollar and citizens are asked to support the cause.

Captains of the different teams of campaigners are: Messdames Guy Bayly, Roy Banta, J. C. Leaker, A. J. Amos, A. R. Kluster, J. F. Emma, W. S. Siferd, Robert Toland, C. L. Day, James Sanderson and G. E. Roubesh.

Team captains will gather at a luncheon at the Lima club on Tuesday, April 1, to arrange final plans and on Saturday, April 5, the captains and their workers will meet when territories and routes will be arranged. At this meeting also a speaker, not yet decided upon, will address the gathering on child welfare work and its strengthening influence to the nation.

Dr. Josephine Peirce is president of the association.

Schools of the various districts have intimated their willingness to cooperate to make the campaign a success.

FIREMEN'S CIRCUS OPENS MONDAY

Many Attractions Arranged for Big Entertainment

With work practically completed on the erection of exhibition booths, with decorations up, and 8,000 admission tickets sold, the stage is all set for the city firemen's indoor circus, to be held at Memorial Hall during the week of March 31 to April 5.

The first performance will begin Monday at 7:30 p. m. Purpose of the entertainment is to obtain funds for the purchase of new uniforms and other equipment for the city fire-fighters.

Ten big circus acts by out-of-town performers are on the schedule for each evening, with the addition of industrial exhibitions including nearly all Lima manufacturing concerns.

Included in the hippodrome features are Dornio and Zellel, tight-wire performers; the Lehmbecks, head and hand balancers; the Rollo Trio, ring artists; Reckless Ross, European cyclist the Frog and Clown Novelty Comedians; the Great Davos, trapeze artists; Clark in comedy and juggling and George and William, comedy acrobats.

Judges Phil M. Crow, Kent W. Hughes and E. N. Warden, of the Third district court of appeals, were in Toledo a part of the week, exchanging places with Judges Chittenden, Richards and Kincaid, of the Toledo district appellate court.

LUNATIC IS NOW IN ASYLUM

Colored Man Taken to Toledo Under Heavy Guard

Securely handcuffed and wearing leg irons to prevent repetition of an outbreak Friday when he battled four armed officers to a finish in the main corridor of the county court house, Ed Ford, colored madman, was taken to Toledo asylum by officers Saturday.

He was committed to the institution by Probate Judge Hamilton, before whom he was brought after being found in an exhausted condition by Deputy Sam Osburn at Blue Lick Crossing Thursday morning.

Police had turned the black man loose to roam the county side. Residents in Leeterville reported seeing three men beating the negro at the Western Ohio stop. They are also reported to have shot at him, as he ran down the road.

Judge Hamilton was highly incensed Saturday when informed that Chief Lancker had declared the negro was turned loose, because probate court would not handle lunacy cases from the station.

"I never heard of this man," Judge Hamilton declared, "until the sheriff brought him in here. My records will show that I have taken care of a number of dementia cases from the police station."

He intimated that he may summon Chief Lancker to explain his criticism of the court.

Judge Hamilton is also endeavoring to learn if police officers were concerned in beating and shooting at the negro Thursday. Residents nearby fearing a murder was being committed, telephoned to Sheriff Crosson.

Two hundred members of the Ohio Valley Shoe Retailers association, including the states of Ohio, Indiana and Kentucky, will meet at the Bar Hotel Wednesday evening, according to Paul W. Crawford, of Lima, president of the association.

Talks will be given by Samuel A. Davis, former efficiency man for the May department Stores, now field man for the National Shoe Retailers Association, on "Serving the Public Better," and "Efficiency."

The object of the meeting is to effect a closer relationship between the public and the shoe retailer, for mutual advantage with reference to service and credit.

According to Mr. Crawford these group meetings are to be held in each of the three states included in the association, and he states that more meetings will be soon scheduled for Lima.

Many reservations have already been received from various cities, and in many cases stores will close in order that both management and clerks may attend the meeting here.

GOVERNMENT OPENS NAVY RECRUITING BOOTH HERE

R. M. Anderson, of the U. S. Navy, is in charge of the navy recruiting station which was opened here Saturday at 126 1-2 W. High-st.

28 DIE IN STORM AND FLOOD

(Continued From Page One)

mile wide and threatened the business district on higher ground. **DEATH TOLL RUNS HIGH**

CHICAGO—(Associated Press)—March prepared to roar out of the middle west like the proverbial lion Saturday night following severe general storms of Friday and Saturday extending from the Ohio to the Mississippi valleys which brought death to a score of persons, injured more than a hundred others and caused damage estimated at hundreds of thousands of dollars.

More rain, probably turning to snow was forecast for sections of the middle west Saturday night, while the upper Ohio valley faced the growing menace of flood waters.

Dead in the wake of the storm included eight killed Friday night in a tornado at Shawnee, Okla., four known dead in southeastern Missouri as the result of a wind storm and reports that four others had perished; a boy killed by lightning in Kansas; two flood casualties at Pittsburgh; three men reported killed when a railroad bridge at Cumberland, Md., collapsed, after being inundated by flood waters, and four trainmen reported killed when a freight train went thru a bridge weakened by high water near Newark, Ohio.

The storm in various sections assumed the proportions of a tornado and elsewhere manifested itself by driving snow and hail. High winds with falling temperatures marked its progress.

TOWNS DESTROYED

Damage was widespread wherever the storm struck. In southeastern Missouri livestock valued at thousands of dollars was killed while three small towns in Kentucky were reported totally destroyed by a wind storm.

Alton, Ill., estimated wind and rain had damaged the city \$150,000 while reports of heavy property loss came from many cities in Arkansas. Damage to crops was feared in some sections of South Dakota and Minnesota because of the low temperatures. With the flood stage expected thruout the upper Ohio valley, indications were that property damage there might be heavy before another 24 hours.

The storm played havoc with wire communication facilities, some sections of the northwest being virtually cut off for a time with the outside world as the result of a terrific sleet storm.

The Associated Press again resorted to radio to maintain communications for a time with Minneapolis, St. Paul and other northwest cities. St. Paul reported itself almost snowed under as the result of a blizzard driven by a sixty mile gale which piled the snow in huge drifts.

BLIZZARDS IN NORTHWEST

Thruout the northwest, blizzards, sleet and snow with sub freezing temperatures contrasted with the thunderstorms and the flood conditions further south. Train service to the northwest was delayed by the snow and many of them arriving in Chicago from the west were hours late.

In Chicago lightning struck a skyscraper in the downtown business district during the violent rain and hail storm Saturday, knocking a flag-staff to the street, while pedestrians ran for cover. The hail storm was driven by a 45 mile an hour wind.

Northeastern North Dakota was isolated by a storm which crippled communication in the whole eastern half of the state.

The sleet and wind storm which swept the eastern half of South Dakota did damage estimated at several hundred thousand dollars.

EIGHT INCHES OF SNOW

Reports from Aberdeen said northern South Dakota was being swept by a high northwest wind and Pierre reported eight inches of snow. Mitchell, Huron and Yankton reported the storm was continuing and the temperature falling.

CUPLE DROWNED

PITTSBURGH—(Associated Press)—Scores of families were vacating their homes in the lowlands here Saturday night, and business establishments in the danger zone were moving merchandise to places of safety, in an effort to escape the rapidly rising waters of the Allegheny, Monongahela and Ohio rivers.

Two flood casualties were recorded late Saturday. Mr. and Mrs. Joseph Kraber were drowned when they attempted to save their son from the flood waters of Sawmill Run. The child and his sisters, who had gone to his aid, were rescued by a railroad engineer.

SANITARIUM UNROOFOED.

CINCINNATI—(Associated Press)—High wind and heavy rain early Saturday morning caused damage estimated at \$60,000 in the Cincinnati district. The wind reached a 34 mile velocity at the Clifton observatory. No lives were lost but patients and employees at the Rock-hill sanitarium had narrow escapes when the roof was blown off. Great damage in Cincinnati was done on Herschel-av in Hyde Park residential district where a part of the new Kilfour school roof was blown away and many porches, fences and trees were blown down. Large electric signs in the city proper were damaged and became loosened.

Two barns and other outbuildings were damaged to the extent of \$8,000 on Emil Hornel's farm, near North Bend, and several animals were killed.

MRS. AGNES WALTER DIES FROM BRIGHT'S DISEASE

Funeral Services for Mrs. Walter

Mrs. Agnes Walter, 71, widow of John Walter, died Saturday at the home of her daughter, Mrs. Ezra Place, 1915 Rice-av., following an illness of three weeks from Bright's disease.

Mrs. Walter was a member of the Reformed church. Besides the daughter, she is survived by a brother, William Brown, of Great Valley, N. Y.

Funeral services will be held at 2 p. m. Monday at the residence.

Rev. J. W. Hoffmann, pastor of the First Reformed church, officiated. The body will be transported to Winnetka, N. Y., for burial.

Funeral services for Mrs. Walter Hamilton, 57, who died at 11:45 a. m. Friday, following an operation at City hospital, will be held at 2 p. m. Tuesday, at the residence, Mrs. W. H. Baker, of the South Side Church of Christ, will officiate. The funeral will be at Woodlawn, N. Y.

Mrs. Hamilton was the wife of Charles Hamilton, 517 E. Second-st.

It's the New Oil Stove

At Fourteen Points the New

RED STAR
Detroit Vapor
OIL STOVE

offers patented improvements

Why be content with an old-fashioned stove? Red Star is the modern stove. Beautiful in its sanitary finish of white porcelain and enamel. Cleans with a damp cloth. Free from every sharp corner, crack, crevice. Not a single inaccessible dirt or grease catcher to bother with. Absolutely sanitary. Built to last a lifetime.

Burns Oil — Cooks with Gas

Patented Cast Iron Burners. Burns common kerosene, gasoline or distillate and turns it into gas. Cooks with clean, economical, quick gas heat. Know what this truly modern oil stove offers at a moderate price.

Demonstrations every hour of the day. Come in tomorrow.

Gas bills high?—Think of this—Average cooking monthly cost only \$2.00—Stove will pay for itself in a short time.

For First Time Central's Young Students Take Stage

SUCCESS BELIEVED CERTAIN

Annual Football Banquet to Be Held Tuesday

For the first time in its history Junior HI school will make an attempt to stage a regular play when a well chosen cast from the seventh and eighth grade presents a musical offering, "The Little Princess," next Friday in Central auditorium.

The play was especially written for younger people. Misses Sharkey and Harlan are directresses. This being the first time that the Junior HI people have tried anything so extensive, they are giving their undivided support in making the play a success.

Those who will have the important speaking parts are Susan Swisher, Marjorie Hunter, Doris Sayers, Ruth Motter, Wilma DeNoon, Louise Smith, Mildred Fisher, Catherine Weagley, Dorothy Mechling, Lester Evans, Sara Miller, Geraldine Offenhauer, Mary Allen, Kool, Gibson, Dillie, Lowell Wiley, William Robert, Lowell Livingston, James Mikesell, Jane Vail, Eleanor Sherrick, George Wood, George Dunn and Edwin Kason.

Eighteen members of the varsity basketball squad of Central HI will be banqueted by the Athletic association at the Barr Hotel, at 8 p. m., Tuesday.

This is the annual banquet for the basketball team and is generally recognized as one of the important functions of the spring. E. A. Hagenstein, faculty manager of athletics is in charge of arrangements. R. E. Offenbauer, principal of Central HI, will be toastmaster of the evening.

Letters will be presented to Captain Claude Wetherill, Bernard Bayh, Jud Farrell, Bob King, George Macdonald, Crit Taylor, Bob Hunter and Elmer Wally. Second string members who will receive mementos are Captain Bill Stanyer, Fred Techantz, John Macdonald, Charles Stewart, Franklin Doan, Joe Shaffer, Joe Herbst, Ray Means, Herbert Van Horn and Francis Herrick.

Members of the H-Y will start this week in the sale of tickets for the Postoria Band concert which will be given in Central auditorium on April 10.

At the nation wide high school band contest held in Chicago last spring the Postoria band of 40 pieces was adjudged the best in the country and still holds that honor. The band will play at the Rotary District Convention April 10 and 11.

The Senior class will begin soon on the sale of tickets for the Senior picture, "David Copperfield" to be shown in the auditorium on April 17.

Money derived from the play will be used to pay for the annual Senior memorial to the school, presented late in the spring.

Senior invitations have arrived and are being parcelled out to the class by Frederick Roberts, president.

Decision that Russia should not be recognized by the United States was made in the Central Senate at the weekly meeting Wednesday afternoon by a vote of 11 to 6.

A hot debate was staged in which Senators Knisely and Hubbell upheld the negative while Senators Hagan and Pierce argued on the losing side.

"The Great Doughnut Corporation," a one-act farce was presented at the weekly meeting of the Troubadour Dramatic society Wednesday afternoon. It was voted a fine success.

Mr. V. Franklin Tells How Cuticura Healed Pimples

"I was troubled with pimples and blackheads for about five months. The pimples were very hard, large and red, and festered and itched and burned after washing my face, and when I scratched them they would bleed.

"I tried different remedies but they failed to help me. I began using Cuticura Soap and Ointment and in about one week I got relief. I continued the treatment and after using four cakes of Cuticura Soap and three boxes of Cuticura Ointment I was completely healed."

(Signed) Virgil Franklin, 816 St. Paul St., Kansas City, Kans., Aug. 10, 1923.

For every purpose of the toilet and bath, Cuticura Soap, Ointment and Talcum are excellent.

Sample Free by Mail. Address: "Cuticura Laboratories," Dept. L, P.O. Box 100, Portland, Me. Send 10c for Cuticura Soap and 10c for Cuticura Ointment. Total 20c. Try our new Shaving Stick.

The following nominations have been made: Hon. C. C. Crabbe, Columbus, Attorney General of Ohio; Hon. John P. Kramer, Mansfield, former Federal Probation Commissioner; Hon. James A. White, Columbus, superintendent of the Ohio Anti-Saloon League; Dr. Hubert C. Eicher, Harrisburg, Pa., State Director, Pennsylvania State Board of Education; and Norman F. Stinegar, Evanston, Ill., noted scientist and engineer.

PAYS \$500 FINE

Mary Dogostino Pleads Guilty To Liquor Charge

Mary Dogostino, 55, wife of Sam Dogostino, 112 E. Fourth-st., was fined \$200 Saturday by Probate Judge Hamilton on a charge of illegal possession of whisky.

Part of the fine was paid and the balance secured. Her mate Wednesday planked down \$1,000 for similar violation of the law. The two were arrested when deputy sheriffs and state prohibition officers raided their home.

The county will receive \$600 of the fines paid by the two and the remainder goes to the state.

HUMPHREYS TO SPEAK

ADA.—Altho complete plans for the fifty-third commencement of Ohio Northern university have not been made, it was learned Saturday that Dr. J. George Becht, Superintendent of Public Instruction in Pennsylvania and Col. A. E. Humphreys, of Mexico, Texas, president of the Humphreys Foundation, will deliver the class addresses on May 26.

Help Baby Chicks Live and Thrive

Feed baby chicks the kind of food that keeps them healthy and growing as fast as possible. It will pay you two hundred times what it costs. Start giving them Pratt's and see how few chicks you lose from under-nourishment or disease. Old hands with poultry say that it's feeding that first few days that counts. And nearly all of them feed Pratt's. Your dealer has it; sell it on money-back guarantee.

**\$1,000,000 SLUSH
BRANDED FALSE**
**Jennings' Story of Chicago
Convention Deal Denied**
PENROSE'S ADVISER TALKS
**Resents Linking Dead Senator's
Name With Oil Scandal**

LIMA NEWS BUREAU,
Albee Building,
Washington, D. C.
(BY J. BART CAMPBELL)

A picturesque denial of the story told by Al Jennings, ex-train robber, ex-politician, and now an evangelist, repudiating a supposed \$1,000,000 slush fund involving Boies Penrose, Warren G. Harding and Jake Hamon at the Chicago convention of 1920, was voiced here Saturday by Leighton C. Taylor, who was secretary and confidential adviser to Penrose during his last days.

Taylor revealed at the same time interesting details of how Harding was nominated while Penrose was seriously ill at his Philadelphia residence.

"Ridiculous—absolutely untrue—those who know Senator Penrose know he didn't do business that way," Taylor snapped out these words when his attention was directed to Jennings' story.

Taylor expressed resentment at any attempt to drag the name of his one-time "Big Chief" into the Teapot Dome oil or any other scandal now engaging the attention of various Senate investigating committees.

He said it was "ridiculous to even suppose Senator Penrose could be truthfully linked up with any such story as Jennings'."

"I guess I was as close to Penrose as anybody during the Chicago convention of 1920," said Taylor.

"I was more than that. Senator Penrose's secretary in those eventful days; I was also his trained nurse. I never left him. As is well known, we had two wires rigged up between Senator Penrose's Philadelphia house and the Congress Hotel at Chicago, one a telegraph, and the other a telephone wire."

PENROSE FOR KNOX

"Senator Penrose was perhaps the original Harding man, but that isn't saying he was for Harding when the Chicago convention opened. As a matter of fact he wasn't, he was for Philander Chase Knox."

"A year before the convention Senator Penrose called Harding into his suite at the New Willard here. I was present. Senator Knox suggested to Harding he could be a candidate for president with his support. Harding was not very enthusiastic about the idea then, telling Senator Penrose he had a hard fight on his hands in Ohio and had enough trouble ahead trying to get returned to the Senate."

"Senator Penrose insisted Harding would make a good candidate, but Harding apparently couldn't see it that way, and his conference with Senator Penrose ended without any agreement being reached. Later on Harding went to Philadelphia and made a speech before the Manufacturers' Club which sounded like small-town stuff to Senator Penrose and did not make a favorable impression on those who heard Harding."

"Matters drifted along after that, and Harding apparently passed from

Senator Penrose's mind. Then came the Senate slush fund probe which eliminated Wood, Lawden and the rest of them. Senator Penrose hadn't thought much of any of them, anyhow, and two weeks before the Chicago convention he called Senator Knox in from Valley Forge to his Philadelphia residence, and suggested to him he ought to be President.

"Senator Knox said he had had enough honors already, and was getting old, and didn't really want to be President. When he went away Senator Penrose remarked to me, 'Knox wants to be President if it is handed to him on a silver platter.'"

"But even after the convention got under way, Senator Penrose was for Senator Knox. He was still for Senator Knox when word reached us that Harding had finally been nominated. That's the real truth about the whole Chicago story."

"As for Penrose being raised up in any oil deal with Jake Hamon or anyone else to put Harding over, or being a party to raising \$1,000,000, or the paying out of \$1,000,000 to help finance Harding's nomination, there is absolutely nothing to it. It's ridiculous!"

"Certainly there was never any

conversation with any one over our wires to Chicago, telephone or telegraph, about the use of or raising of money, or of any oil or other deals. Senator Penrose, as was well known, was a very sick man, and he had the wires put up to keep him posted as to what was going on in the convention."

**ELECTRICAL MEASURE UP
MONDAY FOR ENACTMENT**

Proposed electrical ordinance read twice in commission meeting is scheduled for passage Monday night under suspension of rules.

Amendments approved by commissioners at the second reading have been included in the measure by Solicitor Paul T. Landis, who announces that he will have the measure ready for Monday night.

The measure provides for appointment of an electrical inspector to supervise all electrical installations in public buildings and private homes with the view of standardizing installation and eliminating fire hazards.

1'100 ROTARIANS TO BE HERE

Conference of the Northern Ohio
District Opens April 10

NOTED MEN ARE COMING

Varied Program Planned For
Two Day's Convention

Eleven hundred Rotarians of the Northern district will be in Lima to attend the Annual Rotary club conference on Thursday and Friday, April 10 and 11 at Trinity M. E. church. Delegates from 15 counties will be here and 36 cities will be represented, according to Ralph Austin, former president of the Lima club.

Samuel Siddall, of Warren, governor of the Northern district, and John Byrne Taylor, of England, vice-president of England and Ireland districts, will be the presiding officers.

The conference will be called to order Thursday at 9:30 a. m. by Siddall, and the address of welcome by Roy R. Barnhardt, of the Lima club, will proceed a response by Henry A. Roemer, president at Canton.

An address by Siddall and a report by James W. Kelly, president of the Cleveland club, on the International Conference, followed by an address by John R. Taylor, of Cleveland, will conclude the morning session.

Talks on Rotary by Anthony W. Howe, of Cleveland; William J. Young, of Akron; Charles J. Stockey, of Ashtabula; Henry W. Leuthy, Canton; Edward W. Meser, Mansfield and Fred Warren, of Port Huron, will make up the luncheon program.

BOYS' WORK
A discussion of boys' work in Rotary by George C. Mitchell, Cochocton, ex-district governor, and Cy Butler, of Toledo, will be followed by an entertainment by children from the Lima school for cripples, and will conclude the afternoon program.

Two past district governors, John P. Bentley, of Cleveland, and Samuel H. Squire, of Cleveland, will preside at the evening banquet. At 8:30, Archie C. Klumph, of Cleveland, past international president and world-wide Rotary organizer, will address the conference on "Worldwide Rotary."

Friday will be devoted generally to business, including the reports of the various district committees.

Principal speakers for the morning session are: James H. Richmond, of Louisville, Ky.; Cyler C. Carlisle, of Cleveland; W. H. Balch, of Ashland; Judge T. T. Shaw, of Defiance; C. F. Kennedy, of Van Wert, and John B. Maling, of New Haven, Ind.

The luncheon Friday will be presided over by H. S. Walters, Bucyrus, president, and Leonard P. Skeggs, president of the Youngstown club.

Friday afternoon Clifford Pierce, of Cleveland, and Rev. Mel Stockdale, of Toledo, noted lecturers, will address the conference.

Arrangements have not yet been completed for the entertainment that is being planned for the ladies, and which will conclude the Friday session as well as the conference.

The Lima Kiwanis club will be addressed at its weekly meeting Tuesday noon at Barr Hotel by Judge S. N. Young, of the Toledo municipal court. Judge Young will talk on "Quality, Not Quantity."

ROGERS IS APPOINTED TRAINING CAMP HEAD

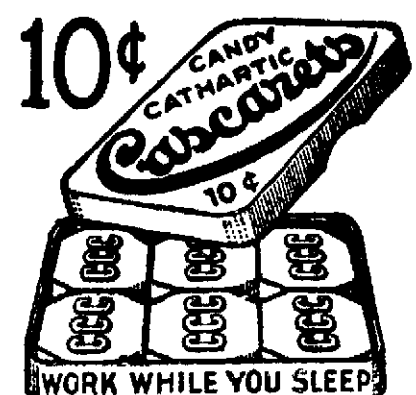

A. M. Rogers, of 605 Citizens-bldg., has been appointed chairman of Allen-co for the 1924 Citizens Military Training camp which opens July 2, at Camp Knox, Ky., and will continue thruout the month.

According to Rogers a drive to enroll 53 men from the Fifth Corps Area, including Ohio, Indiana and Kentucky, will officially begin April 1, and it is planned to have the quota filled early in June.

Any young man from Lima or Allen-co between the ages of 16 and 24 is eligible. Local applicants will be received at 605 Citizens-bldg.

BEST LAXATIVE FOR BOWELS

If Headachy, Bilious, Sick,
Constipated

No griping or inconvenience follows a gentle liver and bowel cleansing with "Cascarets." Sick Headache, Biliousness, Gases, Indigestion, and all such distress gone by morning. Most harmless laxative for Men, Women and Children—10¢ boxes, also 25 and 50¢ sizes, any drug store. adv.

600 Punctures But Still Full of Air

A new puncture-proof inner tube has been introduced in Chicago which has punctured 600 times without the loss of air. Motorists can increase their tire mileage over 12,000 miles by using this tube without removing it from the wheel. It costs no more than the ordinary tube. If you are interested you can write Mr. B. W. Gates at 9 West Illinois street, Chicago, for full information, as he wants these tubes introduced everywhere. Wonderful opportunity for agents. Simply send name, a post card will do.

THE NEW HOSPITAL

Developments during the week on the building of our new hospital brought us no nearer than we have been since the people voted \$600,000 for that purpose. The popular side of the question is undoubtedly that taken by the physicians. For need of this hospital is most decidedly apparent.

Former Mayor Cunningham, despite the unpopular side of his argument, shows greater statesmanship, however, than any other one of his colleagues. Mr. Cunningham most aptly brings up the bold question, how is the city going to operate the hospital; how it is going to pay \$36,000 a year interest, and the pro rata proportion for the sinking fund, from the city's present income?

City finances, unless City Hall underestimates its money resources, are not only deplorable, but desperate. The solution must be higher property values, and higher taxes, automatically. This is a most serious step. It affects everybody from common laborer to capitalist. It affects common labor more than capitalist. The common laborer pays his taxes when he pays his monthly rent; capital pays its taxes from its rents. With a too high tax rate, we shall have too high rents. Labor will either migrate, or wages will increase. Lima wants all the people she has, and more. But the cost of living in Lima must be kept on a parity with the same cost in other cities.

We believe the City Commission should have pointed out to it, the means by which the hospital can be financed and operated, before it hastily sells its bonds and starts to pay interest. We believe this can be done thru private enterprise. We believe it must be so done.

The people will never favor a municipally operated hospital, doomed to failure, before the first patient is wheeled thru its doors.

DAUGHERTY'S RESIGNATION

Attorney General Harry M. Daugherty has resigned. He has done what everybody knew he would do, his declaration that he would not quit under fire notwithstanding. The general public knew that the weight of public opinion sooner or later would force the president to do what he did—literally fire his legal department head.

President Coolidge would have been far better off had he taken this action long ago. Daugherty was too great a load to carry.

And in this connection, we do not believe that Daugherty has been convicted of any wrong. We do not know what would be the outcome if all facts concerning his official and private conduct at Washington were to be submitted to an impartial court under the rules of evidence. We do know that a great deal of hearsay evidence has been submitted and this certainty has had some effect upon the public mind. It is regrettable that the inquiries which are being held at the capital are not dignified by common court practices. As they have been conducted, they are clearing houses for gossip and facts and fancies have been admitted in a conglomerate mass to the detriment of both the country and individuals affected.

If there is anything rotten in Washington, we want to know it and we want it cleared up. Certainly there must be some fire where there is so much smoke. But so far little headway has been made in sifting the grain from the chaff and we are about as much in the dark now as when the lid was blown off as far as the guilty and innocent are concerned.

There is a danger—and some politicians may be playing for that very thing—of the whole affair being made so ridiculous that the public will demand that it be dropped without anything being accomplished. It would be a sin to do this as so many men and women are involved and their reputations are at stake. We would insist upon the probes being completed in a manner that will get results; would insist

upon the guilty being brought to justice and punished, and the innocent exonerated and the perjurers dealt with severely.

We believe the Daugherty investigation should be continued as planned and all departmental matters sifted. The resignation of the attorney general should not stop it.

THE FAILURE OF LAW

Attorney General Crabbe, in his most admirable address before the Rotary club here, gave ample and much proof of the failure of law.

Drifting into the Securities Department of the state, the attorney general launched grave attacks against that branch of what is known as the Blue Sky department. While he did not say that department is a farce, which any financier would admit, he did declare that thru its endorsement of stock issues and flotations, salesmen went out and gassed the public.

Hundreds of investors in this community have grave reasons for remembering the Geiger Jones, the Hollings, and the Domestic Discount flotations. Each bore the stamp of approval from the Blue Sky department. Thousands bought stocks of these sales organizations believing the State of Ohio guaranteed them.

Such is law.

Had the Attorney General gone further and said that the attempt of legislatures to create bureaus, manned by irresponsible political appointees, was a farce from beginning to end, he would have really spoken strong common sense. It is too much law, unworkable, theoretical Law, that brings disrespect for all law.

Since his visit here, the attorney general has visited Toledo and denounced conditions found in justice courts there. He should, in his official capacity, open up to the public the true facts in the Blue Sky department.

Probes are very popular in Washington, and our distinguished attorney general might well make them popular in Columbus. Should he do so, the next Governor of Ohio might be named Crabbe.

AMAZING DISCLOSURES

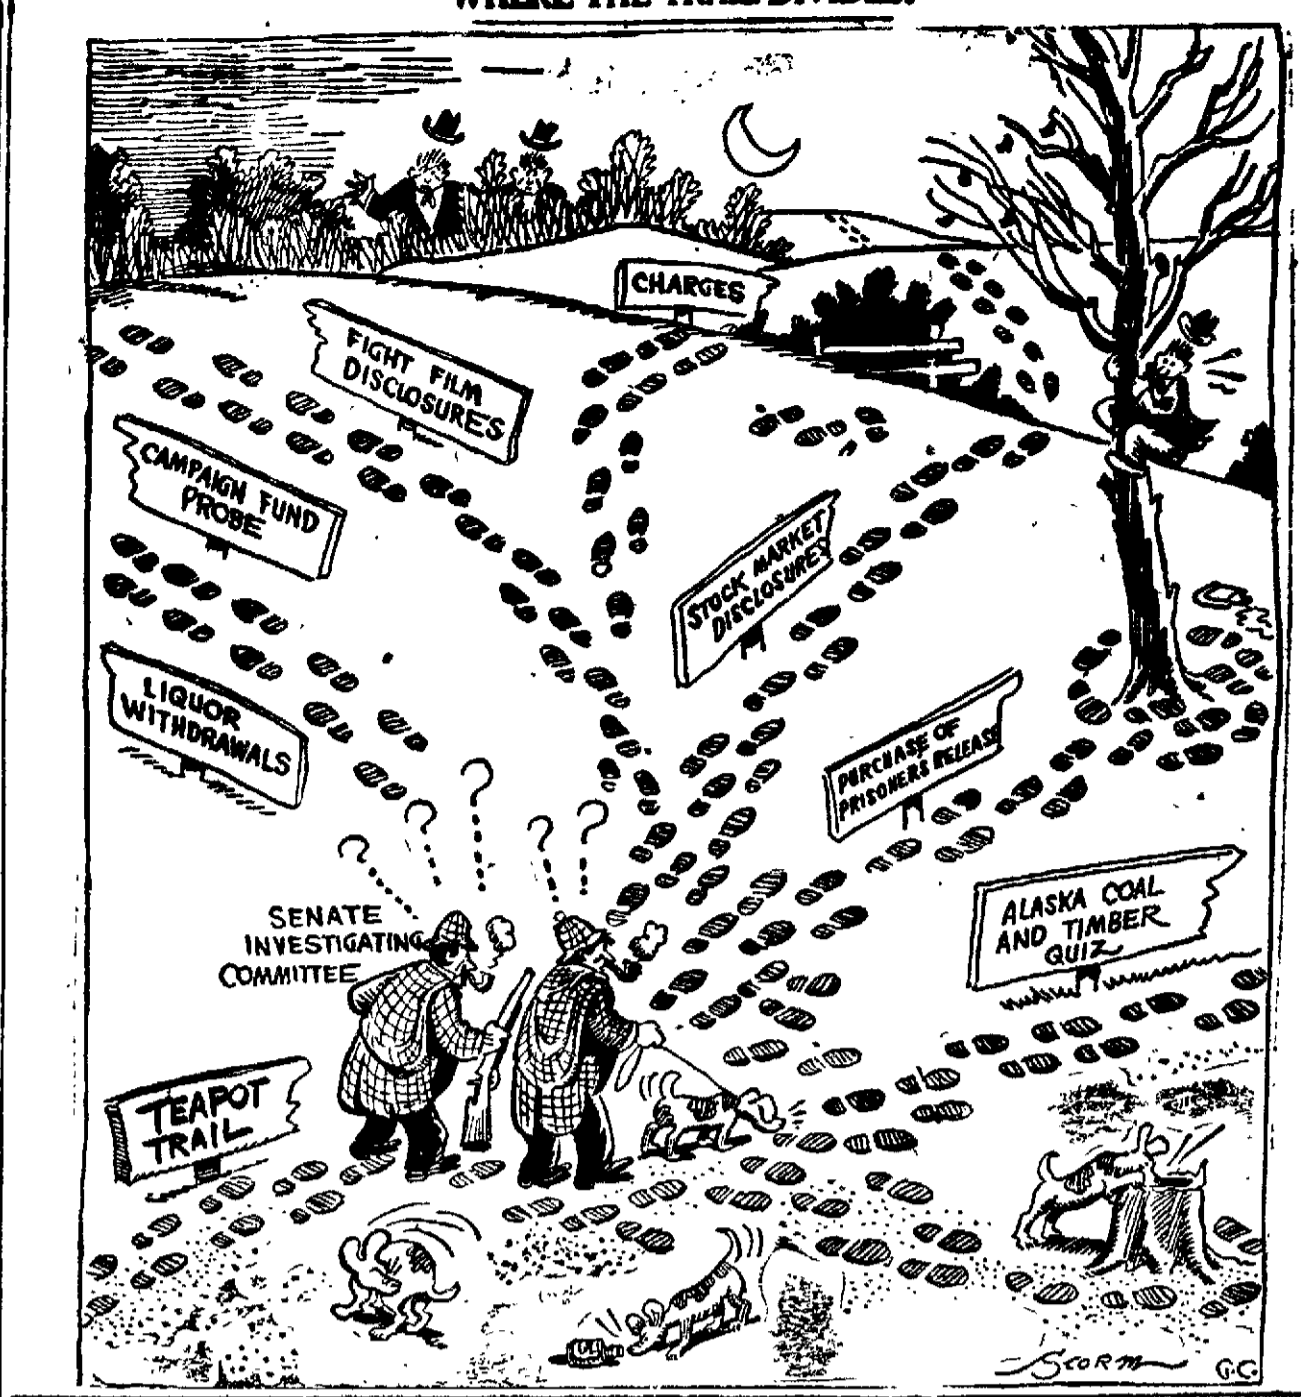

Crookedness and graft in high places has its baneful effect on others, lower down in the scale of official life. This has been true since the beginning of time, and perhaps will continue to be so long as connivance for personal gain at public expense continues in official life in the nation.

While this may be fundamentally the reason for the most amazing disclosures revealed by state examiners when they inquire into the operations of magistrates' courts in the state, there also is the added incentive for picking up "easy money" by the very fact that systems evolved make for temptation in an unusual manner along that particular line.

Only a few days ago state examiners filed their report of an investigation of 16 villages in one Ohio county, in which findings totalling almost \$62,000 were returned, against officials of courts for the most part, where the bootlegger was made to pay tribute for his transgressions of the law.

It was shown that many thousands of dollars were misappropriated by officials, other thousands of dollars were withheld from deposit, illegal fees were paid to illegally appointed and unlawfully continued "card" enforcement officers.

Gov. Donahy struck pay dirt when he fired the prohibition card men, and according to disclosures developing, his will also be the task of ridding the state of card men in the fish and game department, where fine splitting also appears to have been practiced extensively. The disclosures made, and the indignation that is growing anent liquor courts and speed traps is not necessarily against the laws, but there is rightful resentment against the manner of their enforcement, for the enrichment of magistrates and arresting officials in all too many cases.

LIMA NEWS HEALTH SERVICE

—BY DR. WILLIAM BRADY—

HONEY

Surprised to see, writes Howard B., your statement in the press that the popular idea that honey can be used by diabetics who can not use cane sugar or other sweets is without foundation. Dr. ... informed me two years ago that it was advisable to use honey, that it had none of the ill effects of cane sugar. What is the chemical formula of honey? How does it differ from cane sugar and from sugar syrup? What is the per capita consumption of sugar in the United States? How much can safely be used? How much honey used?

Pure honey consists of a mixture of dextrose and levulose, which are sugars practically identical with cane sugar (sucrose) as far as digestion and nutrition are concerned; there is a small amount of cane sugar in pure honey and when the bees are fed on syrup the portion of cane sugar may be as high as 8 percent. There is about 20 to 25 percent water. The flavor of honey is that of the nectar of the flowers from which the bees have extracted the sugar, plus that of formic acid and other secretions of the bees.

There is no evidence to support the theory that the sugar of honey is more readily digested or in any other way superior to cane sugar, and certainly no reason to imagine a diabetic individual can metabolize or utilize honey to better purpose than he can other sugars. It is the flavor, so highly prized by many people, that makes honey such a valuable food.

Perhaps some of us doctors harbor a certain prejudice against ordinary sugar and sweets in the diet, due to the abuse of this class of foods and the evils caused by excessive consumption of sugars. Nevertheless cane sugar or beet sugar or maple sugar or the sugar of honey is a perfectly good, sustaining, energizing, quickly digestible food and it is immaterial which of these forms of sugar you prefer to eat—suit your own taste in the matter.

The last report I saw of the per capita sugar consumption in the United States was rather staggering. I can't remember just how enormous it was, but I thought that if a fellow had to carry his annual allowance on his back he'd need to stop frequently to eat some of it in order to sustain the strength of his heart for the task. He couldn't eat anything else which would more promptly or more efficiently give energy to his heart or to his voluntary muscles either. Had I taken differential calculus—a sad error in my education—I should have figured out the ultimate fate of the fellow's sugar and his heart, by a method similar to that whereby a

Fellowship of Prayer

(Copyright, 1924)

Read Mt. 4:17-25. Text: 4:19. And he saith unto them, Come ye after me, and I will make you fishers of men.

"Jesus' deepest feeding and desire were not simply the direct feeling of the will of God and the desire to do it. He had also the unique feeling that God laid on him personal responsibility for leading all men to feel and do the will of God as he himself was feeling and doing it."

MEDITATION: Jesus considered one objective of the world's work that men should learn the high art of living together as friendly workmen in a common undertaking with their Father God. He realized that men needed divine inspiration and human encouragement to live that sort of life. He called men to come with him that they might learn how to make their lives count for the most in influencing others to live the best life.

PERSONAL QUESTION: May I not dare to say to others, follow my example?

PRAYER: Heavenly Father we thank thee for the possibility of life in Christ Jesus. Let thy spirit inspire one ordinary laborer and let us work together in the light of the eternal, thru Christ. Amen.

JUST FOLKS

BY EDGAR A. GIBSON

THE WEAKLING

I thought I heard the crowd talking through a screen I was walking. "The vain to preach," I heard one state, "We cannot get him to grow straight. He will not live like other trees. But sways with every changing breeze. Upon the fellows of his race His conduct daily brings disgrace."

"Look at him there," another spoke; "He that the way to be an oak! See how his twisted form has shrunk. He has no pride of leaf or trunk. I'm sorry for his family. Which has to rear so poor a tree. Why will he not grow strong and fine And honor his ancestral line?"

I turned and saw a twisted form, Beaten and bowed by every storm. His friends had plied him with their known Upon his roots there was a stone Which held him down and starved his frame And bent him to a life of shame. This was the poor tree's sorry fate: It could not, if it would, grow straight.

So with the race of men, thought I We scorn the weak, not knowing why. We boast our family pride and name, And turn him out who stoops to shame. Yet it may be some heavy weight Prevents his form from standing straight. Here's something which the forest shows: Not every oak to greatness grows.

'ROUND LIMA HOUR BY HOUR WITH APOLOGIES.

BY DEE (NEW YORK) — Up this day early, and away down Broadway to breakfast in a cafeteria. As busy as Yack & Joshi's. But they hand you a ticket as you go in, and punch as you buy. To make you order

ABE MARTIN

Some folks are all right after we and a lot of time on 'em, but there's many other things I cultivate besides. We used to know where the place was, but I'd say we have it now. We used to look all over the place for the money.

another rasher of bacon in shame, if the chit is too small, methinks.

Journalism students dashing out of the subway entrance, and over to the Pulitzer school in haste. So, I caught a Tribune and read with zest Don Marquis' column. Wherein he tells of Aunt Prudence Hecklebury's difficulties to gain the nomination for Chief Executive. Her platform, the Abolition of Sex. And vastly amused, there being no oil in the column to weary one. Albeit, Brooklynites do complain that the Herald's name on the front page is all a hoax. And their pet paper is indeed absorbed.

A book under my arm, thought vaguely of improvement of the mind. But the Hudson called. So, away up the Drive to Grant's Tomb. And at the dock below, did pay five-cent piece for the fresh, breezy ride by ferry across the blue river. Trucks and private cars from Jersey driving off the boat. For a late start downtown to business. Lollied at the rail and enjoyed the gulls on the water, and the glimpses of skyline. With the buses, tiny green bugs, on the overhead at 125th street.

Lunched, with a friend at an English Breakfast room on 48th street. Where the walls are lined with seventy-year-old theatre programs, and pen and ink sketches of

old playhouses. Fania Marinoff finished her lunch just in time for us to get her table. Any way to her matinee in "Tarnish."

All the afternoon bustled at this and that, from a trip down to Rand McNally's for a map, to admiring the new footwear in Frank Brothers. They say there's a shop on the Avenue where the foot may be at once sensibly and attractively shod. Howbeit, 'tis all poppycock talk, methinks. Like saying the cigarette will follow alcohol. Albeit, not so bad, that wise considered. John B. being all about us.

Dined at the famous Astor stables restaurant, with the N. Y. branch of alumnae of my Alma Mater. And put out that Mrs. Thomas Whitbread, (formerly of High street, Lima) did not make her appearance. But found the Maryland chicken deliciously done, and the chatter enlivening. Anent three new hats the wife of H. T. Webster, the World's eminent cartoonist, told us she had just bought. They were the sweetest things. Of them, Mr. Webster was as yet to learn, she confessed.

Hurriedly away, to an evening of mirth at "The Music Box Revue." Florence Moore was the screaming wretch in the famous operatic sextette. So, laughed out, home. And after a Chiclet, late to bed.

True Happiness comes Through helping others.

It is the constant Purpose of this Bank To help in every way That it safely can The men and women Of this community.

VERHARDT DEAD, OPINION NOW

By Bo Recovering, However, Lima Detectives Say

IGITIVE HIT THREE TIMES

ttle Near State Line Making Escape More Easy

William Everhardt, alleged Lima law, who fought his way to freedom following desperate gun battle with an Allen-co posse near Hamilton on a week ago, is either dead or operating from wounds. Such is the opinion of Detectives de Gayman and Lou Rise, who traced from Hamilton-co Saturday, after abandoning hunt for the fugitive.

During the week's quest pursuers found many places where it is believed the quarry had lain and rested. But since Tuesday when he procured food and medical aid at a farm house, no one has seen the outlaw.

Spurred by the report that \$2,500 reward was offered for Everhardt, dead or alive, by Allen-co authorities, a force of 30 Cincinnati detectives have been combing the woods and hills for him all week long.

CHASE ABANDONED

They gave up the chase when they found no reward was offered, Gayman told Sheriff Croson. Detectives who the fugitive has either died in the woods from wounds inflicted in the gun fight, or has found shelter in Indiana or Kentucky, Ohio, Indiana and Kentucky meet at the Ohio river. Habitations are few along the river valley and in the hills that stretch back on both sides of the stream.

Cincinnati, with its underworld is not far away and offers a safe retreat.

HOSPITAL FINANCE UP TO CITY

Cunningham Gets Ruling—May Sub-let Administration

The city will be compelled to assume the entire burden of operation of the new \$600,000 hospital under existing state laws regulating city hospitals.

In a ruling obtained by Commissioner Harold Cunningham, the law states that the city manager is the head of the hospital and all expenses incurred in its operation must be met by the city.

The present hospital is not a city hospital as defined by the state law but is an institution conducted by a hospital board independent of the city, according to Commissioner Cunningham also states that the city's only expense is the annual donation.

Appointment of a governing board

AUTO ACCIDENTS RESULT IN MANY DEATHS IN 1923

Nearly a score of lives have been snuffed out in Allen-co in the past two years by automobile accidents, according to figures prepared Saturday by the state bureau of vital statistics.

Throughout Ohio in the same time 1911 persons were killed with an increase of 245 deaths in 1923 over those killed in 1922.

The figures do not include 157 persons killed in collisions between trains and automobiles, which are charged as railroad accidents.

This appalling loss of life, it is declared, cannot be wholly excused on the grounds of increased use of automobiles. The death rate has been mounting faster than the corresponding increase in use of cars.

Why take a chance? Have your wiring inspected by an expert electrician.

NEWSPAPER ARCHIVE

VERHARDT DEAD, OPINION NOW

By Be Recovering, However,
Lima Detectives Say

IGITIVE HIT THREE TIMES

ttle Near State Line Making
Escape More Easy

William Everhardt alleged Lima
lawyer, who fought his way to free-
dom following desperate gun bat-
tle with an Allen-co posse near Har-
mon a week ago, is either dead or
recovering from wounds.
Such is the opinion of Detectives
Gayman and Lou Rice, who
turned from Hamilton-co Satur-

day, after abandoning hunt for the
fugitive.
During the week's quest pur-
sued found many places where it
is believed the quarry had lain and
rested.
But since Tuesday when he pro-
cured food and medical aid at a
farm house, no one has seen the
outlaw.
Spurred by the report that \$2-
500 reward was offered for Ever-
hardt, dead or alive by Allen-co
authorities, a force of 30 Cincin-
ti detectives have been combing the
woods and hills for him all week
long.
CHASE ABANDONED
They gave up the chase when
they found no reward was offered,
Gayman told Sheriff Crosson.
Detectives were of the opinion
Saturday that the fugitive has either
died in the woods from wounds in-
flicted in the gun fight, or has found
shelter in Indiana or Kentucky.
Ohio, Indiana and Kentucky meet
at the Ohio river. Habitations are
few along the river valley and in
the hills that stretch back on both
sides of the stream.
Cincinnati, with its underworld is
not far away and offers a safe re-

front.
When last seen Everhardt was
carrying bullet wounds in one leg,
his body, and one eye was shot
out.
The bullet wound received in the
right hand by Deputy Sheriff Al
Smith in the fight a week ago has
healed. The bullet tore thru the
flesh just above the knuckle of
the forefinger.
ACCIDENT VICTIMS ARE
RELEASED FROM HOSPITAL
Mr. and Mrs. L. N. Borkin, re-
siding south of Lima, who were in-
jured Saturday morning in an auto-
mobile-interurban train crash at
Bellevue-avenue and Kibby-st., were
able to leave Lima city hospital,
Saturday afternoon, after receiving
medical aid.
Slippery pavement prevented Borkin
from stopping his machine as the
interurban car from Springfield
turned a corner. They were enroute
to Lima to do their shopping. Both
suffered severe lacerations and
bruises about the face and head.
SPECIAL BRICK ICE CREAM
BUNGALOW—MAIN 3738.

HOSPITAL FINANCE UP TO CITY

Cunningham Gets Ruling—May
Sub-let Administration

The city will be compelled to
assume the entire burden of oper-
ation of the new \$240,000 hospital
under existing state laws regulat-
ing city hospitals.
In a ruling obtained by Commis-
sioner Harold Cunningham, the law
states that the city manager is the
head of the hospital and all ex-
penses incurred in its operation
must be met by the city.
The present hospital is not a
city hospital as defined by the state
law but is an institution conducted
by a hospital board independent of
the city, according to Commissioner
Cunningham also states that the
city's only expense is the annual
donation.
Appointment of a governing board

to assume control of a city hospital
is permissible under the state law.
This relieves the city manager of
the responsibility of appointing
nurses, the hospital staff and other
details.
With two sites offered free and a
number of available sites in view,
the commission will take no definite
action until Tuesday night, April
15, when members will meet at the
city hospital as guests of Allen-co
Academy of Medicine to talk on
the site question and form plans
to be presented later to the public
at a public hearing.
COURT AWARDS JUDGMENT
IN MORTGAGE FORECLOSURE
Judgment for \$42,147.10 was
awarded the South Side Building &
Loan Co. in common pleas court
Saturday in a suit against R. B.
Holmes and others in connection
with action to foreclose a mort-
gage on the Holland-apts, W. Mar-
ket-st.
Separate judgment for \$16,218
was awarded Elmer D. Webb Co.,
on the same property.

AUTO ACCIDENTS RESULT IN MANY DEATHS IN 1923

Nearly a score of lives have been
snuffed out in Allen-co in the past
two years by automobile accidents,
according to figures prepared Sat-
urday by the state bureau of vital
statistics.
Thruout Ohio in the same time
1911 persons were killed with an
increase of 245 deaths in 1923 over
those killed in 1922.
The figures do not include 157
persons killed in collisions between
trains and automobiles, which are
charged as railroad accidents.
This appalling loss of life, it is
declared, cannot be wholly excused
on the grounds of increased use of
automobiles. The death rate has
been mounting faster than the cor-
responding increase in use of cars.
Why take a chance? Have your
wiring inspected by an expert
electrician.
SWEENEY ELECTRIC CO.
110 E. Market St.

the bulletin of the bureau points
out.
Ashland-co has the highest rate
of death in the state. Out of every
100,000 persons, 35.6 are killed an-
nually in automobiles. The lowest
rate in the state is Darke-co where
2.3 persons per 100,000 are killed
annually.
C. H. Matherson, 806 E. Vine-st.,
who was severely burned about six
weeks ago, is slowly recovering, and
it is thought that he will fully re-
cover his sight.

Women's Petticoats, 69c

An extra one for 5

Grey striped gingham petticoats, draw string up, cut full—two for only 74c.

COLORED GIANT GETS BACK INTO FAVOR WITH RICKARD

WILLS MAY GET CRACK AT HEAVYWEIGHT TITLE

NEW YORK — (Associated Press) — Harry Wills, giant New Orleans negro, who has virtually been barred for two years from the pugilistic "inner circle", today took the first definite step toward reaching his goal of a title match with Jack Dempsey when he signed with Tex Rickard for two bouts this summer.

Rickard, in the most important pronouncement so far affecting the 1924 heavyweight program, disclosed that Wills had signed for a match in June or July with Luis Firpo, or one of two other foreign prospects and also, if successful in this test, for a little contest with Dempsey in September.

Firpo's recent declaration of his intention to retire is understood to be the only hitch in the way of a match between him and Wills which would determine Dempsey's foremost challenger.

Should Firpo not be available, however, Rickard's agreement with Wills provides for either Quintin Bonaco Rojas, of Chile, or Erminio Spalla, European heavyweight champion, as an opponent for the former stevedore.

KENTUCKY DERBY RUN MAY 17

LEXINGTON, — The New Kentucky State Racing Commission organized here Saturday, electing former State Senator Thomas Combs, Lexington, chairman and Polk Laffoon, Covington, vice chairman. Sigisby Sherwood, Lexington, was named secretary.

M. J. Wynn, Louisville, appeared and dates he suggested for Kentucky tracks were approved. The Kentucky Derby will be run May 17.

BURNS, GREAT FIELDER, FACING OBSCURITY

LEFT TO RIGHT: JAKIE MAY, CAR MAYS; (INSET) TOM SHEEHAN.

ORLANDO, Fla.—George Burns, veteran outfielding star of the Cincinnati Reds, is facing the shadows of obscurity.

A hero of many world series skirmishes, and for years one of the greatest outfielders in the game, Burns this spring finds himself with his back to the wall, battling to hold his job.

Except for the possibility of Burns passing to the bench the Reds remain practically intact, a veteran infield and three additions to the

pitching staff, May from the Coast League, Sheehan from the American Association and Mays, late of the Yanks.

Burns, who grows no younger as the springs roll along, is having a hard time getting started. His old speed is gone and drives that used to fall into his gloved hand are now going for base hits. He has taken on weight and is no longer a feared man on the paths.

George Harper, for three years the Reds' reserve outfielder, and Ed Hock, a 300 hitter from Oklahoma

City, are leading candidates for Burns' old stand.

Harper is not a great hitter and Hock, who is both fast and a skilled fielder, can keep close to the 300 mark against major league pitching he will out Burns.

This is Hock's third trip to the Reds' camp.

The passing of Burns would mark the end of an outfield combination that has ranked with the elite in the big leagues. Roush is one of the great ones of all time and Duncan, with his timely hitting, is more than fair.

OHIO STATE'S YOUNG MEN LIKELY LOOKING BUNCH

COLUMBUS, Ohio — With the opening of the scheduled season only 10 days away, an intensive fight is being waged for berths on Ohio State baseball team. New men are giving some of last year's veterans a stout run for their money and in some cases promise to displace them as regulars.

Altho Coach L. W. St. John has more than enough veterans left to fill every position on the nine, it looks as if at least three and possibly four new men will get the call in various positions. At least half the infield will be new over last year and one and possibly two of the flychasing positions will be held down by new men.

Indications again are that the Buckeyes will have a heavy hitting club. Ohio State teams in the last decade have been noted for their ability to swat the ball, bearing out Director St. John's theory that most ball players, college and otherwise, can be taught to improve their hitting a good many points.

Captain "Hoge" Workman and Russel Miller, pitchers, "Pat" Marts and Dick Brashear, catchers, "Jake" Matusoff at third are looked upon as fixtures. "Ted" Slaman and Ollie Klee in the outfield have an edge on their rivals. At late holders from last season, GORRILL A COMER.

Larry Walther, a Canton boy, transformed from a catcher into a first baseman has looked the part of a real first sacker both at bat and in the field. He now has a rival, however, in Charles Gorrill, the Fostoria youth who held down an end on last fall's buckeye eleven. Gorrill was out of school last quarter following an operation for acute

appendicitis but has returned to classes and has been declared O. K. physically. He earned a real reputation as a ball player in high school and as a freshman.

Benton Dempsey, small but wiry, has had the call for the second base job. He has speed and fields beautifully. He led the team in hitting on the southern trip.

Arnold Condon, of Brink Haven, a newcomer has shown to good advantage and is likely to fit in somewhere, probably in the outfield. Royal Robeson, a senior from Danville, is another new man who has all the earmarks of a good player and can be used either in the infield or as an outfielder.

Don Slotoman, a sophomore from Lock Haven, Pa., seems certain to rank No. 3 among the pitchers. In the opinion of Coach St. John, Slotoman has all the requisites for a good pitcher and can hold his own in Big Ten company. Fred Dobric, of Cleveland, a junior, at present ranks well up among the flingers and if he continues to improve will get plenty of work.

Wesleyan To St. Xavier Has Play Much Tardy Start With Team

DELAWARE, O.—Resumption of Denison-Ohio Wesleyan athletic relations, broken during the Ohio Conference eligibility fight in 1922, is a feature of the Wesleyan 1924 tennis schedule. The lineup is an unusually heavy one, being part of Coach Gauthier's plan for building up spring sports. Twelve series of matches have been arranged with Ohio colleges, six to be played here and six away.

With several of last year's players, including Robert Savage, Elyria, who captained the racket swingers last season, Coach Louis Pappenhagen, who will have charge of varsity tennis again this spring, hopes to develop a strong Wesleyan squad.

The complete schedule is: April 18, Heidelberg; April 25, Kenyon; April 26, Ohio State there; May 3, Oberlin; May 7, Kenyon there; May 10, Wooster; May 14, Oberlin there; May 17, Denison; May 21, Otterbein; May 24, Heidelberg there; May 31, open; June 4, Denison there; June 7, Ohio Conference matches.

CINCINNATI—After considerable delay due to inclement weather, baseball practice at St. Xavier College is being accelerated by Coach Joe Meyer who has less than two weeks to prepare for the opening of the Ohio Conference season here with Miami, April 12.

The necessary tardy start in training exercises is being reflected on the pitching and catching candidates especially. St. Xavier was without a suitable place in which to hold preliminary indoor practice and the battery men received no benefit of extra lumbering-up sessions.

Work of building an infield will take most of Coach Meyer's time. Only one veteran of the 1923 team, Tom Ball, second baseman will be a candidate for an infield post. Ball is a Cincinnati boy. Al Rapp, Hamilton, who played in the gardens for St. Xavier last season may be shifted to first base this year. Harry Albers, Cincinnati, a sophomore infielder appears as good prospect for either short or third base.

Earl Sullivan, sophomore from Middletown, who has been listed as a reserve hurler, may be transferred to the outfield.

St. Xavier will play Notre Dame here, April 19. Local athletic authorities are negotiating for a return game at South Bend.

He Could Sprint

The American League has witnessed many speedy players. For instance, Bert Shotton, when with the Browns, was noted for his fleetness. Cobb, "Topsy" Harrel of the Athletics; Milan, Washington; Hooper, White Sox, and Davy Jones, former Detroit star, all were or are fast men of foot. But it is doubtful if any of them could out-leg Harry Bay, old Cleveland celebrity. Bay was fast, and then some. A hunt down the first or third base lines, or a lazy grounder along the grass usually means a safety for Bay, so quickly could he scot from the plate to the initial cushion.

Wooster Will Have New Stadium

WOOSTER, Ohio.—Concrete football bleachers with a seating capacity of 10,000 constructed at a cost of \$50,000 to \$60,000 will be constructed at Wooster College before the opening of the 1924 football season. The first game is with Ashland College on September 29.

The proposed stands to be constructed at once will extend along both sides of the playing field. They form a part of a giant horseshoe, the rest of which will be built when needed. This improvement is a part of the fifty year building program at Wooster College.

The growth of college football at Wooster under the coaching of L. C. Boles makes the proposed improvement necessary. Under the present arrangement Wooster is unable to handle the crowd of alumni and friends who come to Wooster to see the Wooster eleven in action. Where Wooster at one time had only a few hundred to see the games, now several thousands are in attendance for all contests.

When the stands are completed Wooster College will have one of the best equipped athletic fields in the country. The gridiron is now second to none. The baseball field, which is separate from the gridiron has an infield which is a duplicate of Dunn Field of Cleveland and the track with a 220 straightaway is one of excellence.

STIRBLING BATTLES McTIGUE

NEW YORK.—(Associated Press) —Mike McTigue, guardian of the world's 175 pound pugilistic toga, will meet one of the most formidable opponents in his division in Newark, N. J., on Monday when he crawls through the ropes against Young Stribling, Maccos Ga. school boy, in a 12-round no-decision match.

Physically the two light heavyweights will be well matched. Stribling faces the task of having to stop McTigue or win on a foul to gain the title which the veteran Irish-American won a year ago rom Battling Siki. If the battle goes the limit, Mike will not lose his crown, even if outpointed.

McTigue has been idle since his sensational draw with Stribling in Columbus, Ga., last October while the Georgian has kept himself on edge with a steady campaign of bouts.

Both have wound up their training and plan only light exercises to keep limbered up. McTigue declared Saturday he was in the best condition of his career and is fully confident of his ability to stop his youthful challenger. On the other

hand Stribling, speaking through "Pa" Stribling, asserted that after Monday's battle the light heavyweight toga will rest upon new shoulders.

Wayne Volley Ball Team Wins

Fort Wayne Y. M. C. A.'s volleyball team went thru the tricity tournament held at Van Wert Friday night by winning over both of Lima's teams and the Van Wert Y. M. C. A. outfit.

Fort Wayne's first team won six games and lost none. Lima's first team took second place with four wins and two losses, while the Fort Wayne and Lima second teams tied for third place with one victory and three defeats apiece. Van Wert failed to win a game, losing four.

AUTOMOBILE INFLUENCES ALL BUSINESS

EVERY BRANCH IS BENEFITTED

Merchants' Demands for Goods Depends on Highway Conditions

TOURIST TRADE IS LARGE

Fish and Game Licenses Increase in Northern States

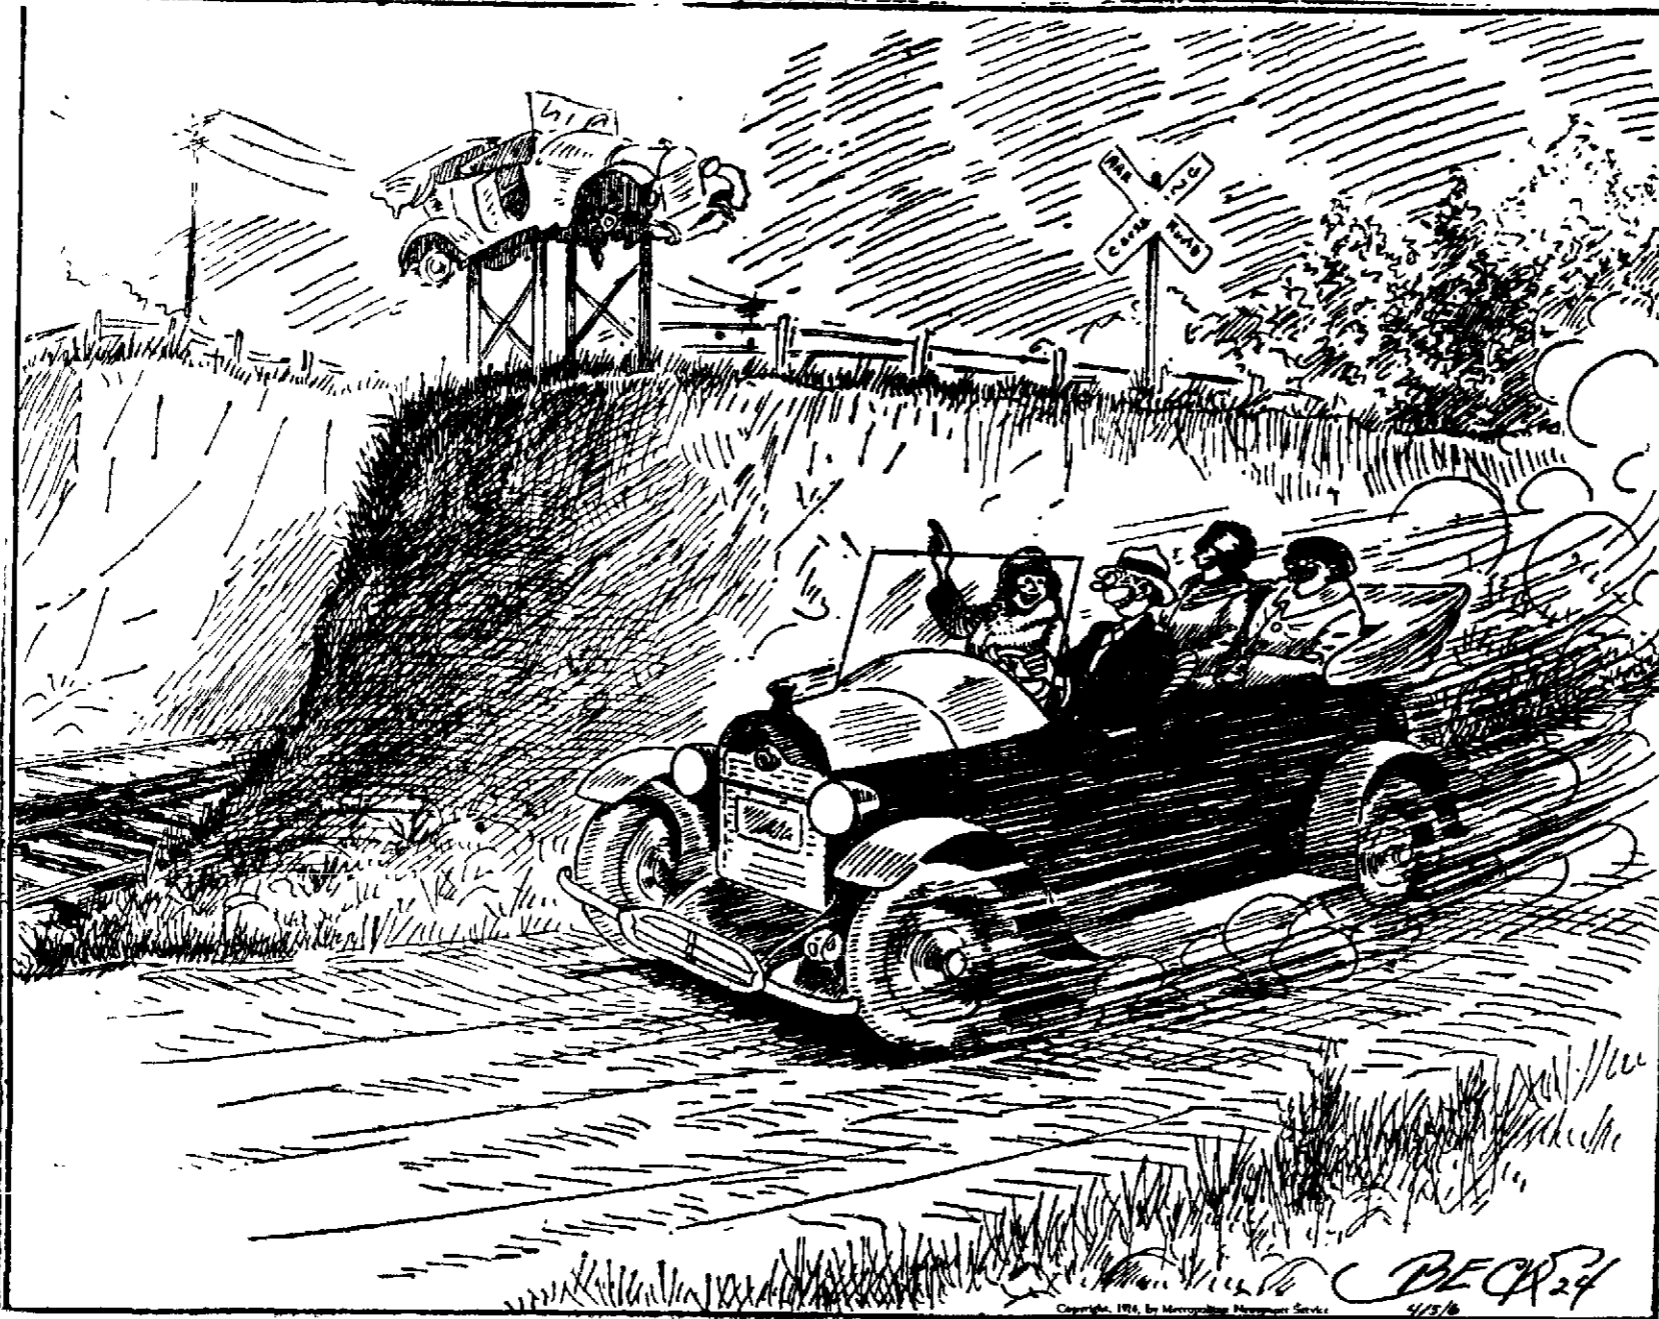

With 14,000,000 motor cars and trucks now on the highways of the United States and with every indication pointing to a continuance of sound prosperity and increased production of automobiles this year, it is interesting to note the powerful influence of the motor car over our manner of living and over business in general. Investigations made within the past few months throw considerable light on the beneficial effects of the motor car on lines of business entirely foreign to the automobile industry.

The vast army of tourists that travel the main highways of the country through the summer months by virtue of its very numbers has opened new avenues of business, has extended the business of the small-town merchant, has increased the revenue of the farmer, the hotel keeper, the manufacturer of cameras, of fishing and hunting equipment, of the maker of knit goods, of soap, and of toilet preparations; and meanwhile the widespread adoption of the automobile as a convenient means of transportation has increased suburban real estate values, has built up outlying business communities, such as department stores, furniture stores and theatres, and with it all has brought health and happiness to millions.

BUSINESS AFFECTED
Many interesting facts have been brought to light in the investigations referred to. For instance a merchant in a small town in a central western state bought \$5,000 worth of knit goods in 1922. Last year his order called for less than one-third of the same kind of goods. The knitting mill with whom this man did business immediately sent a representative to investigate. He discovered that the town in which their customer conducted his general store was on one of four principal highways in his state. It had been found necessary to make some extensive repairs on this highway. Just outside the merchant's town and traffic was being detained in another direction. Lack of this tourist trade accounted for the decided slump in demand for knit goods at this particular store. Merchants in these smaller towns on main traveled highways are stocking better grade of goods and many are buying merchandise of a character that they never carried before. Demand, inspired by the passing tourist, having brought the merchandise to the shelf has resulted in a subsequent demand for these articles by the townspeople themselves. The effect obviously has been extremely beneficial not only to the merchant but to the manufacturer of these various products as well, automatically providing him a wider market for his goods.

LICENSE DEMAND
In the state of Minnesota the Fish and Game Commission reports that in 1917 8,011 licenses were issued, the following year this was increased to 15,000; in 1919 the figure was 18,000 and in 1921 it issued 24,000 licenses to hunters and fishermen.

DOWN THE ROAD—"CLEVER IDEA THAT OUGHT TO TEACH THESE FOOL DRIVERS A LESSON"—By BECK

Reports of investigators show that the manufacture of fishing rods has increased approximately 500%. Tent manufacturers, camp stove makers and stores of others have enjoyed within the past few years the huge expansion of their respective industries.

Hundreds of thousands of farmers throughout many sections of the country are taking advantage of the modern form of transportation which brings the city man and family right to his door. An actual count made this past summer showed that in the state of Wisconsin alone one farmer out of every three, along the main trunk roads, erected a market stand near the highway; in Iowa one farmer out of every four had his produce stand and in the Michigan fruit belt one out of every three.

From reports at hand it would appear that the clothing manufacturer also is among the beneficiaries of the general use of automobiles; he finds the motorist demanding better grades of clothing, golf attire, light overcoats for fall and spring driving and heavy overcoats of more substantial quality for the winter months.

The soap industry reports that the 14,000,000 motor car owners and their families have provided in the past ten years an additional market for soap equal to the market of the whole United States at the time of the Civil War. Cosmetic makers and manufacturers in many lines have shown remarkable advances as a result of automobile travel. In addition to its direct effect on such industries as steel, glass, leather,

and lumber, the automobile in hundreds of ways has created new trade, developed industry and at the same time it has given the American people broader vision and a greater understanding of America's greatness.

Overland Sedan Is Improved By Recent Changes

Changes incorporated in the Overland Sedan are among the outstanding ones made recently in the Overland series by the Willys-Overland Inc.

This sedan is now being introduced to the American motoring public with some distinct improvements including a bigger, roomier body and a larger, more powerful motor. The standard Overland chassis on the comfortable riding Triplex springs with 30-inch spring base still prevails.

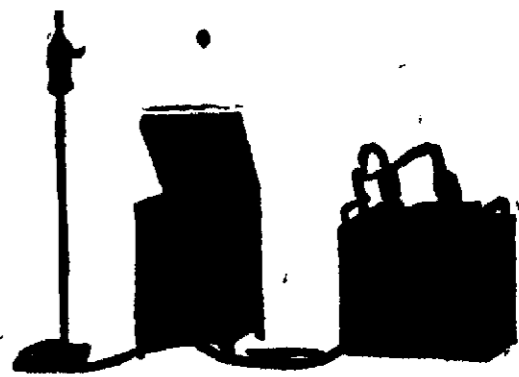

Apart from the bigger engine the added improvements are centered chiefly in the body design and equipment. The rear seat of the new Overland Sedan body is wider, deeper and more comfortably pitched.

Rich grey upholstery makes a beautiful interior, with plate glass windows, Dura window regulators and dome light. Then there is a cool ventilator, sun visor and Fish Cord Tires.

payments of the D. T. & L. plan have been suspended on the basis of a trouble payment plan. Checks for interest payments for the months of November and December, 1932, have been suspended on the basis of a trouble payment plan. The plan was approved by the Interstate Commerce Commission, to guarantee rate of interest could be specified. This was to depend upon the road's financial condition and its earnings. Accordingly, it was decided that the company's income has been sufficient since the inauguration of the plan last November to justify a suspension of twelve percent annually.

The first payment of this high rate of interest has had the effect of producing much enthusiasm for the plan among the road's employees and there has been considerable of an increase in the number of certificate purchasers.

Within a month after the plan was announced, 147 employees had deposited \$6,233.80. By February 1 of this year certificate holders had increased number to 585 with a total of \$58,002 invested.

The D. T. & L. is issuing \$1,000,000 worth of the certificates and men on the company pay roll may invest up to one-third of their salary. A desirable feature not found in the average investment is that if for any reason it becomes necessary for an employee to withdraw a portion or all of his investment account he can do so without delay or inconvenience.

and the engine should be thoroughly drained and flushed with a light quality motor oil. New lubricating oil should be used to refill the oil system, and if the car requires a lighter oil for summer driving, this should be used. Inspect the oil in the transmission and rear axle, adding more if necessary. Fill all cups or use dope "gun" on all oil connections, such as axle bolts, universal joints, etc.

Test engine to see if it overheats. Should it do so, it may be caused by improper timing, carburetor adjustment, water circulation, water pump or fan belt not functioning properly. If a rich gasoline mixture has been used during the winter, be sure that the carburetor adjustment is changed.

Check and adjust tappets: clean spark plugs; if an excess of carbon is found, have cylinders cleaned and valves ground. Inspect wiring and see that all connections are clean and make good contact. See that the battery is filled with distilled water to the proper level.

The work as outlined above will simply repay the motorist in a fashion for road breakdowns and expensive repairs during the spring and summer.

Personal opening of the new D. S. Jones Co. sales room will be made Thursday of this week. It was located at the corner of McDonald and Markyt-sts. in the Lima home of the Dodge Bros. motor cars.

The opening will last over a period of three days, Thursday, Friday and Saturday, officials of the local company announce.

Preparations are being made to handle the crowds of people who will visit the sales room among the most elaborate in the city.

Musical entertainment will be furnished every evening by one of Lima leading orchestras.

Every department of the new sales room will be open to public inspection.

Nash Plant Has Charms For Men Of Universities

Senior students in electrical and mechanical engineering of Iowa State college in an inspection of the Nash factory of the Nash Motors Co. one day last week familiarized themselves with the various elements that enter into the construction of an automobile that is built 93 percent complete within the walls of one factory. The students visited the Nash plant under the supervision of Paul W. Ellis, professor of mechanical engineering, and F. H. McLain, professor of electrical engineering. The inspection trip is a regular part of the college curriculum.

Besides being shown the Nash

any car the student can learn the details and covering of sheet metal, the cutting of leather for the upholstery and body trim, and finally the care that is exercised in the painting of

University of Illinois, University of Wisconsin, University of Illinois, Armour Institute of Technology, Northwestern University and DePaul University.

Clevenger Auto Sales Co.

140 S. MAIN ST. MAIN 7137

Auto production for the past six months has been breaking all previous records, there has not been a nearly equal increase in the service demands for the new "True Blue" Oakland automobile, R. A. Armstrong, Oakland Motor Car Co., service manager, says. "Service requirements for the 1934 Oakland have been less than for any other new model car in my experience," says Armstrong.

"During the next month will be the critical time for car servicing," Armstrong says, "as this period marks the transition from winter to summer driving. Owners of any make of car can save themselves money and trouble by giving their car a thorough overhauling at this time."

A broadening of the flat rate service plan is being prepared by Armstrong. Complete information regarding every possible kind of repair has been tabulated and will be supplied dealers within the next fortnight. Bryan Motor Sales Co., 308 W. Market-st., will receive its supply soon. The tabulation will describe the sequence of operations necessary to make any and every repair, together with the average time each operation consumes, and what materials or parts are required.

This plan will help the dealers check their repair costs and also enable many of them to reduce those costs by using the more efficient methods.

Value Of Parts More Than Cost Of Auto Output

That there is more money spent annually for repairs on cars than spent for new cars, was a statement made by Henry Kirkland, merchandising director, of Flint, Mich., recently. Kirkland was talking on the need of better business methods in service stations and garages, everywhere.

Kirkland emphasized the opportunity for men who are really business men as well as high grade mechanics by saying, "Last year, the selling price of all the new automobiles sold was \$2,500,000,000 on which the dealers made a net profit of 3 per cent, or \$75,000,000. But the selling price of parts used on repair jobs was \$2,900,000,000 or \$400,000,000 more than the price of the new cars, and the profit on these repair jobs was 15 per cent, or \$435,000,000.

"That is nearly six times as much profit on service as on new cars and this is only on the parts used in repair jobs. It does not include

the charges for labor, the profit on the time. When you add that, the money spent for repairs is seen to be many times greater than the money spent for new cars. The garage manager must be a real business man to handle this business right."

Motorcycles To Assist Firemen

Indian motorcycles have proved valuable to many fire departments, the motorcycles responded to 325 alarms in 1933, and only two required other apparatus to extinguish the fire.

Included in the equipment that the Indian Fire Patrol model carries are chemical fire extinguishers and a long water hose. The equipment is especially designed for the extinguishment of brush and grass fires, street car, automobile and truck fires, kitchen, chimney and other incipient fires in residences.

Tighten all loose nuts, particularly body and shackle bolt nuts. See that brakes are properly adjusted and relined if needed; focus head lamps and have tires inflated evenly and to the specified pressure.

Twice as many Essex cars are now being sold than last year, according to information reaching D. M. Clevenger, local dealer for Hudson and Essex cars. This word from the Hudson Motor Car Co. declares the new Essex six is meeting the most enthusiastic reception of any new car ever sponsored by Hudson.

Schedules of production for the Essex six were originally set at twice the number of cars made in 1933, but these schedules have proved too small, it is declared, and the Hudson Motor Car Co. is now bending every effort to produce every Essex six possible in the plant.

"I believe this is because the new Essex has proved that it will actually outperform the old 'four,' famous as the car was," declares Clevenger. "The new Essex is smoother, quieter, more economical by far, a better climber and faster in pickup. In every day usefulness it is a far superior product."

"A good many of our Essex 'four' owners thought they had the finest car in the world for performance and endurance. They were a most loyal and enthusiastic body of owners. But we can show even them that the new Essex six is an advancement."

ALIMONY AWARDED
 Temporary alimony of \$10 a week was awarded Mrs. Wanda Gardner in a suit against Paul Gardner, waiter, in common pleas court Saturday. Gardner was also ordered to pay \$40 to his wife for attorney fees.

missioner at Primary
 John Sereff, traffic manager for the Lima Stone Co., and trustee of Shawnee-tp, Saturday announced his candidacy for the nomination for county commissioner on the Democratic ticket.

He will make his campaign on the good road issue. Sereff is a staunch advocate of improved roads, he says, and believes in a systematic campaign to better them.

He is lessee of McBeth's park and owns the old McBeth farm directly across the road from the park. He is a son-in-law of "Bill" Rusler, the Sage of Shawnee.

Studebaker Has Finished Seven Day Trial Trip

A remarkable seven-day, 168-hour, non-stop run of 8,101 miles, just completed in Florida by a Studebaker Light-Six touring car, is causing widespread comment among motorists.

Eighteen drivers handled the car during the run. Taking out the car required for changing drivers, the Light-Six actually covered 8,101 miles in 147 hours at an average speed of 21 miles an hour. Gasoline consumption averaged 21 miles a gallon and only 3.9 miles per quart of oil was used.

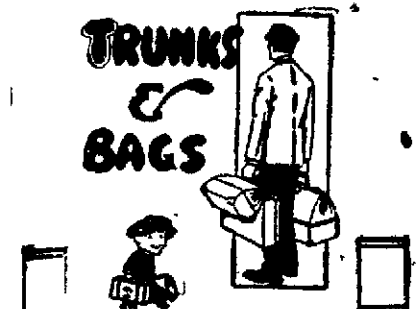

The original owner, Monroe Lassar, of the Tampa Daily Times, drove the Studebaker for 15 months on his express schedule over his newspaper route, for 68,000 miles.

After this grueling road work, the Studebaker was taken in by the General Motor Corp. Tampa, who had 7,000 miles, making a total of 15,000 miles the car had been run. Without tuning up, the traded Studebaker was started off on the record-breaking run.

No adjustments were necessary during the test. The motor and car were in excellent running condition at the termination of the non-stop flight. This record, it is said, has never been approached in the South.

HONORED BY KING

ADA — Clyde J. Rew, former Ada boy now living at Lakewood, has just received a citation from King Albert of Belgium for services rendered in the Belgian sector during the late war. Rew also received the Belgian War Cross for bravery under fire. He is the third Ada boy to be honored in this manner.

INTERNATIONAL MOTOR TRUCKS

One Ride a Revelation!

IT is largely the power and pep of the new Cleveland Six motor that influences so many persons to buy this new 5-passenger sedan.

The plain truth is that not one motorist out of ten knows the Cleveland Six is one of the finest performance cars being built.

Until they drive it, they do not dream that the Cleveland Six gives exactly the performance qualities that are the basis of owning high priced and heavy cars.

It takes hills with a smooth, masterful, irresistible rush—takes them faster and easier—and with an absence of effort that is a revelation.

It sweeps along at high speeds with Pullman car smoothness—without swaying, rocking, or weaving.

In traffic, it is nimble, alert, easy to handle, and impressively swift on pick-up.

Like all Cleveland Six closed cars, it has a Fisher body, notable for the fine coachwork, the spaciousness and comfort-giving qualities that Fisher craftsmanship creates.

Like all Cleverlands, it comes with an established reputation for unfailing dependability.

At its present price, \$1295, it stands out as a really remarkable value—unquestionably the soundest buy of the day for those who want the very maximum of closed car comfort at the very minimum expenditure.

It is impossible to prepare an advertisement that will reveal the decisive superiority of this new model as convincingly and completely as a demonstration. To arrange one implies no obligation. Please phone us.

Genuine balloon tires (31 x 5 1/2) optional, \$70 extra. Cleveland chassis design permits their use without affecting road, frame, or fender clearance.

A PLEASING EXPRESSION

Is more fascinating when teeth are perfect and well set. A replaced tooth is usually a pleasant surprise to your friends, as well as an aid to more thorough mastication. The grinding of food is more evenly distributed when there are a sufficient number of good teeth.

You will enjoy the usefulness of teeth that I replace and the need of them is likely greater than you may realize. Prices are no more than the careless dentist charges. Make your call, save pain, and enjoy better teeth.

Car Owners Endorse Full-Size Balloon Tires

"Strong for Full-Size Balloons"

Previous to changing my car, I had ridden in other cars equipped with Balloon Tires and was rather skeptical regarding the claims advanced for these tires. Since, however, this feeling has changed into the conviction that the small wheel Balloon Tire is here to stay. Streets in this city which have been a terror to the car-owner with high-pressure tires are driven over with the Balloons with no discomfort to the occupants of the car; none of that terrible jarring and jolting to the car itself.—H. V. Nalley, Rockford, Ill.

"Higher Speed Without Speeding"

I never realized it was possible for such a difference between the full-size Balloon Gum-Dipped Cords and regular tires. I have no "shocks," use only snubbers and can drive the car 40 miles an hour over a rough corrugated road without feeling any shock whatsoever. I know that any person who would ride in a car equipped with Firestone Balloon tires a few miles, then get back into their present car that they never would again be satisfied until they discarded their tires and replaced them with Firestone Balloons.—Harry A. Dorman, Sacramento, Calif.

"No Increase in Gas Consumption"

After about 7,000 miles of use, I as yet have not had a puncture or flat tire from any cause whatever. I have also watched the gasoline consumption very closely, checking several trips, some of which were made on ordinary and some on Balloon Tires, and found the mileage was the same on both types of tires. I cannot discover any deteriorating effect on power in my car, going every place on high gear with Balloon tires, that I was accustomed to going on regular equipment.—E. H. Grey, Pittsburgh, Pa.

"Better Car Control"

Throughout this past winter with snow and ice to contend with, I had the opportunity to satisfy myself that Firestone Balloon Gum-Dipped Cords hold the road better, cut skidding to a minimum and generally permit the handling of a car with less danger of mishap.—Charles L. McCarthy, Chief, Worcester Fire Department, Worcester, Mass.

"Performance Remarkable"

Just this week I put in several hundred miles in the Berks and Lehigh County potato belt where the roads were frozen and full of tracks and ruts, some of them a foot deep. Their performance was nothing short of remarkable. Have had many argu-

ments concerning their road-worthiness in heavy mud but never had anyone take up my offers to beat them in actual tryout.—Lloyd O. Yost, Harrisburg, Pa.

"Vibration Eliminated"

With the use of Balloon Gum-Dipped Cords there is an entire absence of the short vibrations that are the principal fatiguing element in touring. Steering gives no trouble at all; a little more pull on the wheel when drilling in a garage, etc., but none at all when running. When my car was equipped with 5-inch oversize tires, it frequently galloped at certain speeds on smooth pavement; there is now no trace of this movement.—Kirk Brown, Montclair, N. J.

"Greatest Advancement Since Self-Starter"

I am so delighted with Firestone Balloon Tires that I cannot refrain from writing to you about them. The additional riding comfort is wonderful and the safety, due to the large amount of tire surface on the road, is something which no car driver should overlook. I cannot speak too lightly of these tires, and I believe they are the greatest advancement in the automotive industry since the electric starter.—F. W. Schwinn, Chicago, Ill.

"No Decrease in Mileage"

Real praise comes from the elimination of road trouble caused by punctures and excessive tread wear. The low air pressure in the Firestone Balloon tires causes them to render no resistance to sharp obstacles in the road and absorbs them in contact. To date I have driven over 5,000 miles with the original four balloons and from their appearance 20,000 miles is a conservative estimate for their total mileage.—H. Edson, Wheeling, W. Va.

"Lengthening Car Life"

Firestone Balloon Tires treat a car so tenderly that we fear from now on our Service Station will be a poorly-paying proposition. None of the cars we have delivered to date, has required any service.—Bryant G. Smith & Sons Co., Cole Distributors, Boston, Mass.

"No More Body Rattles"

They eliminate any chance of body rattles and the riding qualities are unexcelled. I have tried them on all kinds of roads—dirt, rough and smooth macadam and hard surface roads. They held the road when wet and icy, and increased the braking power. The pick-up of the car is quicker with Firestone Balloon Tires.—B. H. Avery, Bowling Green, Ohio.

"Improves Car's Appearance"

We are so pleased of our success with Firestone Balloon Tires that we are writing you today. The riding qualities alone were increased at least fifty per cent, and the appearance of the car was improved by the change.—Bloede's Sales and Service, Buick Distributors, Crown Point, Ind.

"Safety and Comfort"

Due to the satisfaction we have experienced with the first set of Balloon Tires applied, I have since equipped my Sedan with your 7.30 Balloon Tires. The Parmelee Company, in addition to their fleet of trucks, operate eleven Ford cars, for the use of their salesmen. I have instructed our Superintendent to equip all of these cars with Balloon Tires for the safety and comfort of our men.—The Parmelee Co., A. W. Moore, General Manager, Chicago, Ill.

"Skidding Done Away With"

Our ambulance has been in operation for a period of 9 months and every day we receive compliments on its easy riding qualities. I have taken particular notice of the fact that at a high rate of speed on wet streets the skidding is done away with.—George P. Bell, Fairfield, Ala.

Thousands in All Parts of the Country Praise Balloon Comfort, Safety, and Car Conservation.

Enthusiastic Over Prompt Application With Firestone Changeover Unit.

We quote here a few of the many good things motorists are telling us every day about their satisfaction with Balloon Gum-Dipped Cords.

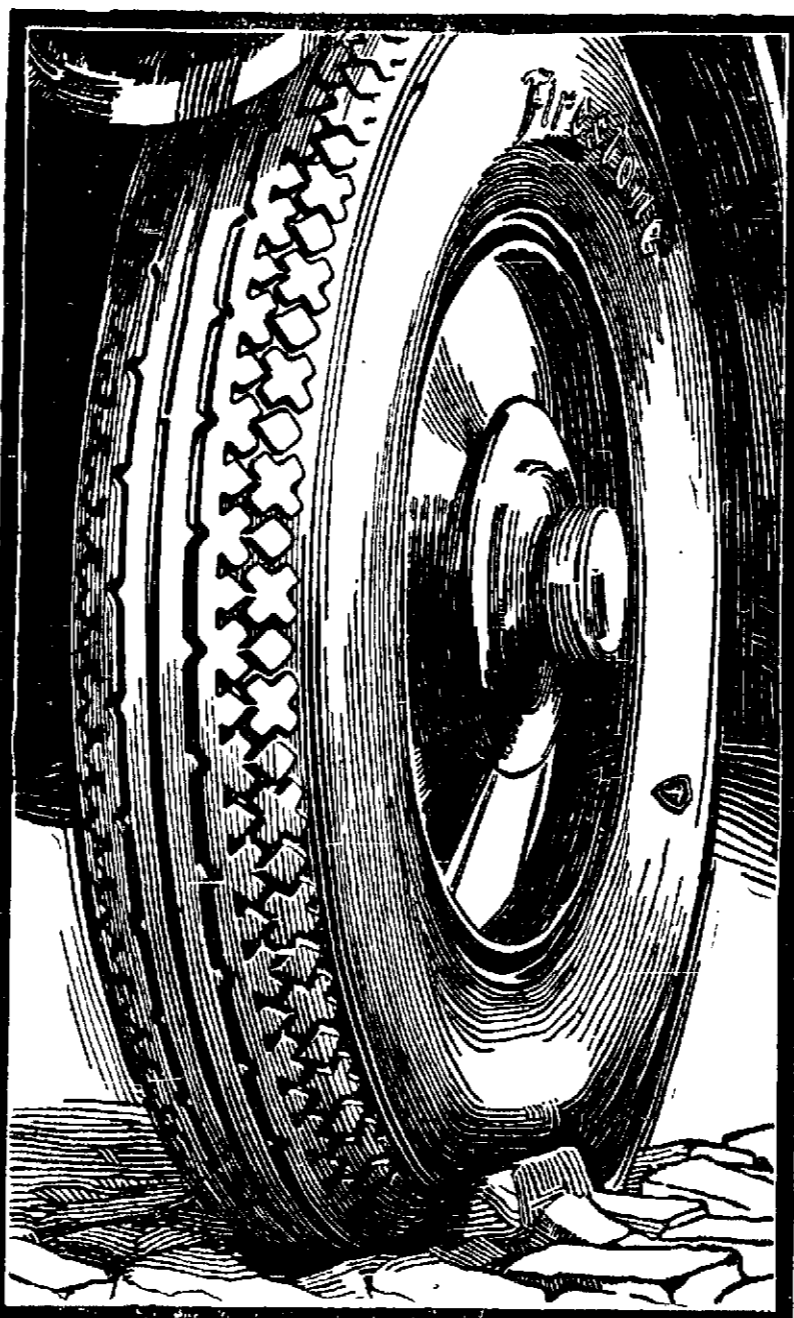

We are ready with standardized sizes of full-size Balloons and the correct wheel and rim equipment for quick, inexpensive changeover.

Changeover to full-size Balloons is quickly accomplished with the special Changeover Unit, designed, perfected, and manufactured by Firestone for cars here listed. Only the rim and spokes removed. No change to hubs, brake-bands, or other parts.

It is simple and easy for you to secure all the benefits of full-size Balloons—new comfort, safety, car protection, high mileage, and low fuel consumption.

Once you have experienced these and other advantages you will never be without full-size Balloon cords. You, too, will add your approval to that of the thousands of motorists and many prominent car makers who have adopted them.

Drive your car to our shop. Let us show you how quickly we can equip you and at what small cost. Drive your car away the same day, completely equipped. We'll make the changeover in record time and at minimum expense to you.

Below Are Listed the Full-Size Balloon Tires Recommended for Your Car

FEDERATION PLANS OPEN AIR PRODUCTION

"MIDSUMMER NIGHT'S
DREAM" WILL BE PUT
ON AT FAUROT PARK

Work of Staging Shakespeare Play Is Divided Among
Various Divisions of City Club Body at Meeting
At Library Saturday

Mrs. Taylor Named Delegate to State Conference—Others
To be Selected Later—Questionnaires on
Newspapers Out

(BY HOPE HOLLISTER)

An open air production of Shakespeare's well-known opera, "Midsummer Night's Dream" will be given under the auspices of the fine arts department of the Lima Federation of Women's clubs at Faurot Park, early in June. This announcement was made Saturday at the regular March meeting of the city federation held at the Public Library by Mrs. William Daniels, chairman of the fine arts department. The presentation which will be given both afternoon and evening, promises to be an elaborate one.

Mrs. Foss Zartman, chairman of the literature committee of the department, and her committee will choose and direct the cast. Miss Edith Simpson and the members of her art committee will arrange the settings and make the costumes, and the music, which has been written for the opera by Mendelssohn, will be in charge of Mrs. E. A. Siferd and the music committee.

The women of the federation are eager, not only to assist themselves financially, but to stimulate interest among the general public in the higher class of entertainment, by this production.

Mrs. E. B. Taylor presided during the meeting Saturday. Reports were given by the various officers and committee chairmen. Mrs. Taylor was named the official delegate to the state federation meeting in Toledo May 19 to 23, with Mrs. Otis Lippincott, her alternate. The three remaining delegates and the alternates will be named at the April meeting.

Mrs. Henry Delzel, Jr., chairman of the ways and means committee, placed the annual year-books on sale and announced that it is the desire that each club woman will obtain one. The books contain information necessary to every club woman, especially chairmen of the different committees.

Mrs. Frank Bell gave a report of the legislative committee and Mrs. M. D. Owen told of the work being done at the Economy Shop at 628 S. Main-st., which was opened by the child welfare department. The federation is doing a large part in the work of this shop.

Mrs. Sherman Lawson, as chairman of the community service committee of the department of American citizenship and citizenship training, read a letter and questionnaire which has been sent to the city's clubs regarding the suppression of scandalous news from the front pages of newspapers. This movement is a national one and was begun at the biennial conference of the general federation held at Atlanta, Ga., last May, she said. Views of the club women have been solicited and later, if the women desire, the matter will be presented to the men's clubs. This movement is not as an "attack" on newspapers but as a "constructive criticism."

Mrs. Lawson explained that the representative of the state magazine, "The Buckeye," made an announcement concerning the publication. Preliminary announcements were also made by Mrs. Taylor concerning the biennial conference of the general federation to be held in June in Los Angeles.

Mrs. S. S. Thompson was elected president of the Garden club formed at her home in Shawnee Friday afternoon. Other officers of the club, whose membership includes 25 women, interested in the beautifying of their own lawns and gardens, are: Mrs. Wallace King, vice president and Mrs. Frank Bell, secretary and treasurer. Mrs. Charles Clark is chairman of the program committee and Mrs. Fred Becker, chairman of the committee on constitution and by-laws.

The club will meet on the first and third Monday of each month. A question box will be conducted at each meeting during the summer, the women hope to have expert gardeners talk before them.

The next meeting of the club will be on April 7, with Mrs. Harry Fenton Lowell as guest.

Members of the Thursday Luncheon Bridge club will be entertained at the Elks' home, Thursday at one o'clock luncheon. The hostess will be Mrs. Earl Winemiller, W. North-st.

Miss Jane Barber, E. Elm-st., entertained the members of her Sunday school class at her home, Thursday evening. Games and music were enjoyed and a luncheon was served.

Those enjoying the evening were Misses Zula and Ruth Blodgett, Elvie Sakemiller, Lena Sproul, Edith Tappin, Ruth Jones, Ledelia Welty and Edna Manuel, of the class, and Miss Elizabeth and Miss Helen Watkins as guests.

The class will meet in two weeks with Miss Ruth Jones.

The Women's Missionary society of the Central Church of Christ will meet Friday afternoon with Mrs. E. H. Palmer, 430 S. Kenilworth-av. Mrs. John Rossfeld will have charge of the program.

Mrs. Earl Winemiller and Mrs. A. E. Gale will entertain the members of the Iris Bridge club at one o'clock luncheon at the Elks' home on Friday. Bridge will be played following the luncheon.

Mrs. John Harkick, N. West-st., will be hostess to the members of the Delta No. 1000 club at her home, Thursday afternoon.

Members of the Delta class of the Market Street Presbyterian church Sunday school entertained guests at dinner at the church, Saturday evening. The affair was in the form of a "Leap year party." Table appointments were of lavender and gold.

During the dinner, toasts were given by Joseph Fritz, who spoke on "Leap Year," Rankin Bingham, who had as his subject, "Sophistication" and Earl Rohn who spoke of the Sunday school. Mr. and Mrs. Earl Rohn chaperoned the group.

Those enjoying the affair were Misses Dorothy Barth, Rebecca Andrews, Mary Douglass, Catherine Laughlin, Margaret Nungesser, Miriam Kamenar, Bernice Lindesmith, Dorothy Preston, Miriam Toakum, Janet Conaway, Jeannette Lerch, Dorothy Lerch and Messrs. Stephen Churchill, Richard Euller, Frank Cory, Oliver Kirk, Rankin Bingham, Morris Hughes, Joe Herbst, Frank Schoenlin, Wendell Henderson, Harold Krein, Gene Langley, Joseph Fritz and Mr. and Mrs. Earl Rohn.

Mrs. Alfred Gleaves, 111 W. Halter-st., will be hostess to the members of the Young Ladies Circle of the Congregational church, at her home, Monday evening.

Mrs. Joe Meindering held high score in the bridge games Thursday evening when Mrs. George Burgoon entertained the members of the November Bridge club at her home on N. McDonald-st. A luncheon was served following the games.

The club will meet in two weeks with Mrs. Joseph Gorman, Grand-av.

Members of the Primrose club were the guests Wednesday afternoon of Mrs. E. S. Verbyrie, Euclid-av. Euchre was the afternoon's diversion and at the close of the games, Mrs. Hugh Francis and Mrs. Trachsel held high scores and Mrs. Charles Bluchel, hostess.

The club will meet in two weeks with Mrs. George Ruck.

Mrs. L. G. Dickensheets, W. Market-st., entertained informally at cards, Friday afternoon. Five hundred was played and at the close of the games, Mrs. Neil Poling and Mrs. Ernest DeVoe held high scores. Tea was served.

Those present were Mrs. Dan Gilbert, Mrs. Howard Chapman, Mrs. C. M. Andrews, Mrs. Roland Page, Mrs. Ross Wolfe, Mrs. O. L. Campbell and Mrs. V. G. Dickensheets.

Mrs. Tarry Lefell and Mrs. Wilbur Lefell will entertain the members of the Cynosure Bridge club at the former's home on St. John-av., Thursday evening.

Mrs. Frank Sealtis, N. Charles-st., will entertain the members of the Non-Toll Bridge club at one o'clock luncheon and bridge at the Elks' home, Monday.

Those present were Mrs. Dan Gilbert, Mrs. Howard Chapman, Mrs. C. M. Andrews, Mrs. Roland Page, Mrs. Ross Wolfe, Mrs. O. L. Campbell and Mrs. V. G. Dickensheets.

Mrs. Tarry Lefell and Mrs. Wilbur Lefell will entertain the members of the Cynosure Bridge club at the former's home on St. John-av., Thursday evening.

Mrs. Frank Sealtis, N. Charles-st., will entertain the members of the Non-Toll Bridge club at one o'clock luncheon and bridge at the Elks' home, Monday.

Those present were Mrs. Dan Gilbert, Mrs. Howard Chapman, Mrs. C. M. Andrews, Mrs. Roland Page, Mrs. Ross Wolfe, Mrs. O. L. Campbell and Mrs. V. G. Dickensheets.

Mrs. Tarry Lefell and Mrs. Wilbur Lefell will entertain the members of the Cynosure Bridge club at the former's home on St. John-av., Thursday evening.

Mrs. Frank Sealtis, N. Charles-st., will entertain the members of the Non-Toll Bridge club at one o'clock luncheon and bridge at the Elks' home, Monday.

Those present were Mrs. Dan Gilbert, Mrs. Howard Chapman, Mrs. C. M. Andrews, Mrs. Roland Page, Mrs. Ross Wolfe, Mrs. O. L. Campbell and Mrs. V. G. Dickensheets.

Mrs. Tarry Lefell and Mrs. Wilbur Lefell will entertain the members of the Cynosure Bridge club at the former's home on St. John-av., Thursday evening.

The Correct Foundation For the Easter Costume

These new Corsets with elastic inserts in the back are just the kind that will lend themselves to the slender silhouette so fashionable for Spring. All the newest frocks have youthful straight lines and these Corsets have been especially designed to conform with this slim effect. In pink satin brocade \$3.50.

OTHER
R. & G.... **\$1.25** **\$7.00**

Have your new corset fitted in our well appointed corset shop on the second floor before making the selection of your new Easter outfit. Your Spring frock will look best over a properly fitted R. & G. Our corsetiers will be glad to help you.

WHAT KIND OF HUSBANDS DO "JIMMIES" MAKE?

Excursions In Matrimony By Irresponsible Rich Are Discussed by Noted Writer

Steadying Idea In the English System of Aristocracy—
Emptiness of American Leisure—Dispersal of
Fortunes are Reviewed

EDITOR'S NOTE: The responsibility of matrimony and how they should be met have engaged the attention of other notable contributors to this great forum on the problems of modern society, but in the present article the author discusses an all too prevalent condition—matrimony without responsibility.

The penalty of this irresponsibility, as Mr. Fitzgerald shows, affects other social conditions as well, and in the same degree that it threatens the institution of matrimony, he believes that it threatens, unless corrected, the structure of American society.

BY F. SCOTT FITZGERALD

HOW about the sons and daughters of the rich? Those whose engagements and marriages are this day announced on society pages the country over. What kind of a success will they make of marriage and what sort of ideals are they capable of passing on to their children? Consider:

The door captain at the Mont Mithel Restaurant approaches Eddie, the head waiter, with a distraught expression in his eyes.

"Young Mr. Jimmy Worthington is outside," he says.

"Drunk?" asks Eddie.

"He can hardly stand up."

"Is he dressed," Eddie does not mean: Is he in his underwear?—tho this would not surprise him a great deal. He means: Does he have on a dinner coat?

"Yes."

"All right," says Eddie, "Show him in."

IDEAS ABOUT LIFE

And into the Mont Mithel cafe reels that peerless aristocrat, that fine flower of American civilization, young Mr. Jimmy Worthington. His father made a fortune hoarding food during the war but the son scorns commerce and has gone in for aristocracy on a large scale.

I have often talked to Jimmy and tried to find out his ideas about life. It is an enlightening if somewhat alarming experience, for Jimmy's conversation is chiefly a history of his more recent dissolutions. He has heard his father make remarks about "these dangerous radicals," so Jimmy thinks of all the policemen and soldiers in America as a sort of bodyguard to protect his person from the "lower classes."

He thinks that when he is arrested for running his car sixty miles an hour he can always get out of trouble by handing his captor a large enough bill—and he knows that even if he has the bad luck to run over someone when he's drunk, his father will buy off the family and keep him out of jail. This is a complete summary of Jimmy's attitude toward the government under which he lives.

FASHIONS IN BEHAVIOR

It has been the fashion for the last five years to blame rich girls for the "wildness" of the younger generation. Women, however, are always just what men make them. In 1840, women were required to faint to show their delicacy—in 1924, women are required to dissipate to show their sportsmanship. Occasionally the revulsion from some orgy throws Jimmy in a panic into the arms of a girl of character. But, as a rule, he marries someone like himself.

Jimmy and Mrs. Jimmy have a year of dissipation together. Mrs. Jimmy is "a good sport"—she has to be; if she ceased being one Jimmy would find another lady to be a good sport in her stead. Perhaps at the end of a year or two, there is a single child—not particularly wanted nor particularly unwanted; not the center of the household apparently, nor the result of any scheme of life—simply a child which exists thru its infancy in a sort of vacuum; not unloved, but, somehow, an incongruity inasmuch as its parents, tho they may have three houses, have not succeeded in establishing anything in the nature of a home.

On the contrary, they are already drifting apart. Their bonds were never very close, for in the world of continual stimulation in which they moved they never really regarded marriage as a permanent thing.

JIMMY'S CHILDREN

The psychological effect of the child on Mrs. Jimmy begins a new era in her marriage. Something is wrong and she knows it. She is torn between her natural love for the child and the idea that she's got to keep up with Jimmy. But the problem is solved for her by Jimmy, who has learned to amuse himself without her. To all intents and purposes their marriage is over.

Let us suppose that Jimmy and Mrs. Jimmy remain together after a fashion and have a series of three children over an interval of ten years. Is Jimmy in any position to supervise their education. Not if he hasn't even the wisdom to have them intelligently alone.

He knows by this time that there is something wrong with his life and his one idea is that his children shall be unlike himself. And if all the intolerant, mean, and unjust parents in the world are exterminated in the worst, he looks with horror on the hideous escape.

"BROTHER OF THE RICH"

While at no period in the world's history, perhaps, has a larger proportion of the family income been spent upon display, an even worse phenomenon is observable in those who come into contact with the irresponsible rich. Every wealthy set in the big cities has many couple who, from their inability to pay the heavy financial cost of post-prohibition entertaining, have become nothing more than sponges and parasites. I know dozens of boys who have never been able to live down expensive educations, who come into contact with the rich, wasteful class at the big prep-schools and universities and never realized what young Midas wastes today was once paid for by old Midas, his grandfather, and that what he himself wastes is going to be sweated out of his parents' inadequate bank book. He sees young Midas reel thru life like Jimmy, or, if he wants to work, be sent

F. SCOTT FITZGERALD

Great Grand-nephew of Francis Scott Key, Who Wrote "The Star-Spangled Banner," and Author of "The Beautiful and Damned," "This Side of Paradise," "Flappers and Philosophers," "Tales of the Jazz Age," "The Vegetable," Etc.

value of this particular practice, but it shows how necessary it seemed to this boy's father that he should have a sense of responsibility—if not to the country, at least to the fortune he was some day to control.

ONE ENCOURAGING FACT

Probably the most encouraging thing about the Jimmies is that they don't survive—survive, I mean, as rich men. The largest purse has a bottom, and the Jimmy never works with the hand blunt and sponge and borrow his way along, his children will have to take what scraps remain and start again in the middle class.

Since I was seven years old, just twenty years ago, I have seen in my own experience the break up of five sizable fortunes. Out in St. Paul where I was born, a dozen houses still stand that were once inhabited by one-generation "aristocrats." The "aristocrats" are dead now and their fortunes have melted away; their children who had no sense of responsibility, even towards their father's money, are bad examples around the streets or, at best, starting life over again with nothing but their own talents and a pioneer name.

This phenomenon, remember, is peculiarly American. English families seldom if ever decay with such rapidity, because they are founded not on sand but on aristocracy. And real aristocracy, whatever its faults, is willing to undergo a discipline of its own.

A PRETENTIOUS MOCKERY

The leisure class of England are not soft. They have their scandals, their wastrels, their rouses—but in London one never gets the impression that one does sometimes in New York, that all society is a silly, pretentious, vicious mockery of a defunct feudal regime.

Let the American rich have their summer and winter places which tower over our suburban bungalows; let them keep twelve suits and servants to our one. The founder of a great family has been shrewd and successful and bought his descendants soft, fine things that no relative has seen fit to provide for.

Thematically, at least, we have the same character for a mausoleum as all the Astors in England and America. It is not so much what the rich do as what they don't do that becomes more and more deplorable each year. They grow softer and softer—and Jimmy's father is now just as soft as Jimmy. Let two dozen workmen meet behind a barn and he bursts out in a cold sweat, casts aside eight centuries of justice and tries to get half a dozen bewildered foreigners sent to Leavenworth for ten years. He stocks his cellar with liquor and then votes righteously for prohibition "for the good of the masses."

WOMEN AND THEIR HANDICAP

And Jimmy's father after a hard office day looks for his ideals—to his wife.

The effect of this on the children of the rich has been enormous. Women are not public spirited—they are not natural idealists—they are too "practical" to be concerned with anything that is not their own. When they make standards they are inclined to make violently selfish and unchivalric standards.

Can you imagine the usual very rich woman urging her son to go in to politics for the good of the country—if, say, he were making a big success in business? The thing is inconceivable. Women do have vast dreams for their children, but when it comes down to cases their desire is that their children shall take no chances and, at all costs, keep out of trouble.

SOURCE OF JIMMY'S IDEALS

American rich boys of this generation get what ideals they have from their mothers. The boy watches his mother's almost insane striving toward a social position commensurate with her money. He sees her change her accent, her clothes, her friends, her very soul, as she pushes her way up in life pulling her busy husband with her. Jimmy's idea of politics becomes the remembrance of some preposterous women's club that met at his mother's house one day. Politics, he thinks, is a thing which very women read long dull papers made up out of the month's newspaper editorials.

By the time he is twenty-one Jimmy is about as public-spirited as a snake. He is not told that his father grew rich because America and his father was somewhat shrewder and more industrious than other men. He is told that his father is an unselfish individual who "helped develop the country." He is told that because his father has done this noble work he can now look down on everyone less rich than he. This privilege, the boy gathers from his mother, is the highest inspiration of which a citizen is capable.

So, as it turns out, our rich boy grows up in one of two ways. Either he learns a set of intensely soft, intensely selfish ideals at his mother's knee and spends his life busily adding to the fortune that his father made. Or, he learns no ideals at all and assuming that aristocracy is a sort of drunken reel between two long lines of bribed policemen, spends his life and money in a riot of extravagance and petty vice.

FIVE HUNDRED OF THE RICHEST

What a waste! Think of the hundreds of first-rate men who have come out of the British leisure class—statesmen, poets, painters, architects, soldiers, scientists, physicians, philosophers, empire builders—men who have made life easier and more beautiful by having lived. And then look at the American leisure class, note that it has produced—well, two Presidents, out of twenty-seven! The greatest Americans have come almost invariably from the very poorest class—Lincoln, Edison, Whitman, Ford, Mark Twain.

I have a list at hand of our five hundred richest families. I run down the list. Here is Jimmy, a typical Jimmy and another, and another, without variation. Here is a row of Jimmies, you can see them every night in certain cafes of New York. Here is a family which has produced nothing but Jimmies for three generations and yet its wealth for some mysterious reason doubles and multiplies.

All that leisure—for nothing! All that wealth—it has begotten waste and destruction and dissipation and snobbery; nothing more. Three generations of chorus girls and race track fouts and one generation of bootleggers have profited from it—that is all.

Is this to go on forever? Are the rich to breed 10,000 Jimmies until they become a race apart—or will they find that if they want to survive they must realize what really is the responsibility toward the country? Otherwise it will be brought home to them in the decay and failure of their own begotten sons.

GOOD MANNERS

A "cut" or direct stare of refusal of recognition is the height of insult. Happily it is practically unknown in polite society.

SILK DUSTERS

Silk dusters are best for use on pictures and picture moldings.

TILED HEARTH

Should be washed with soft soap and then rinsed in milk.

WARMED OVER MEAT

A few cloves added to your warmed-over meats will give a little added interest to the flavor.

"UNDECIDED" WOULD MARRY MAN TO PUNISH HIM FOR PAST MISDEEDS

Plan Does Not Win Favor With Susie Smart Who Points
Out Its Many Dangers—Other Problems are Given
Consideration by Expert on Home Difficulties

Dear Miss Smart

I am a constant reader of your column and think your advice has helped many, so I am coming to you with my troubles. I am in love with a man and hope to marry him some time. A few years ago, I became engaged to another man and a distant state and was to have married him some time ago, but for some unaccountable reason, he refused to marry me at the last minute. Am I still engaged to him? We still correspond occasionally and he talks of marriage.

I do not love him any more but I am inclined to think that I should marry him and then divorce him as a punishment for his former breach of faith. After that, it is my intention to marry the man of my choice.

Does this meet with your approval?

UNDECIDED.

It does not. To be very frank with you, I think you are a foolish woman to be thinking of such a wild and unworthy scheme. It really should be beneath you to have anything further to do with a man who has once refused to marry you. I wonder at your writing to him. Suppose you did agree to marry him and he left you in the lurch the second time, how would you feel? Certainly you are not engaged to him. His refusal to marry you certainly broke the engagement.

Suppose you really could carry out your plan? What would the man whom you really love think? Would he want to marry you then? I'd advise you to stop writing this young man and put him out of your thoughts.

Dear Miss Smart

Please answer the following questions.

Could you tell me the name and address of the man that collects the state compensation?

Also, please tell me of a way to curl your hair without using the curling iron or "Curly Locks."

How is my writing? M. B. G. F.

Your question is not clear enough for me to answer. There are several compensation laws and you refer to it. There is a state inheritance tax, an industrial compensation and others. If you will restate your question, I would be glad to give you any information I can.

Aside from a curling iron, or curling fluid of some kind, the kid or electric curlers are the only means I know of to make curly hair.

Good.

Dear Miss Smart

Please answer the following questions.

I am nearly 17 years old, married and have a baby five months old. I am five feet tall and weigh 100 pounds. Is this the right weight? Do you think I will get any taller? I have not grown any for two years, and my father is about five feet, six inches tall and my mother is only about two inches taller than I.

Can you tell me how to wash a dark green silk tricolette blouse? It is headed.

Please tell me how to raise poppies, sweet peas and pansies successfully.

What materials will be worn for the spring dresses? What kind of foot-wear will be worn? Will two-tone oxfords be worn much?

Which style blouse is most worn? Personally, I like mine best parted on one side and curled.

Is this the correct stationery on which to write?

Which to write a letter of this kind? How is my writing? Wording? Punctuation?

May I write again or have I worn out my welcome?

SALLY.

You are just a few pounds underweight. It is not likely that you will grow any taller.

In planting poppy seeds, do not sow them out-of-doors too early, wait until the ground is warm. Cover seeds 1-16 of an inch deep, pack earth firmly over them. Keep ground moist until up, afterwards, water each day as needed at sun-down.

Place the seeds about 12 to 15 inches apart. Sweetpeas: sow seeds early in spring; cover three or four inches deep. Furnish support as soon as the plants are up, as it is difficult to train them if allowed to commence running on the ground.

Cut flowers freely and do not allow seed-pods to form. Be sure and plant the seeds two to three inches deep and pack the earth firmly about them. Moisture the sweetpeas as you do the poppies. Pansies: Sow seeds early in spring and transplant as soon as they expand the second set of leaves. Cover in winter with straw or evergreen boughs. Plants from seed sown in spring, should not be allowed to blossom until fall, or if allowed to flower during the summer, it is a good plan to make a second sowing in August. When planting, cover the seeds no deeper than 1-8 of an inch.

It is impossible to wash a beaded blouse, especially a tricolette one. I would suggest you sending your

blouse to a dry cleaner.

The majority of spring dresses are of flannel, crepe and the printed silks. For street wear, strapped slippers, with both a high and medium heel, are being worn. For dress, patent leather or satin pumps are very popular. No, the two-tone oxfords are not extremely popular this year.

Both the plain bob and the shingle bob are very popular at this time. It really depends more upon which style is the most becoming to you, rather than which style is the most popular. Some people look well with their hair straight and parted on the side, others, with their hair curled. Wear it the most becoming way.

Your letter is very well worded and written. Write often, won't you?

Dear Miss Smart

What colors can two blondes wear best?

How old should a girl be before keeping a company with boys?

Are sandals going to be worn this summer?

What do the following names mean and what are some good nicknames? Walter, Maurice, Evelyn, Thomas, Frank, Harold, Marcia, Nellie, Violet, Lawrence and Matilda?

We are going abroad some time next summer. What should our wardrobe consist of?

How is my writing? JUST SISTERS

Pale blue gray, lawn, tan, moss or olive greens and brown are attractive shades for blondes.

Girls should not go about with boys until they are sixteen, and then only with their parents' consent.

Not a great deal.

Walter means ruling the host—Walt and Wat are often used as nicknames; Maurice means dark-colored—Maurie is a common nickname; Thomas means a twin and such a nickname as Tom, Tommy are often used; Harold means a champion and a popular nickname is Hal; Franklin, often called Frank, means to be frank; Albert, often called Al, means illustrious; Lawrence means crowned with laurel and a common nickname for it, is Larry; Evelyn means life—nickname, Eve; Marcia means pearl—nicknames, Peggy, Peg, Margery and Mag; Violet means a violet—nickname, Vi and Matilda means heroine—nickname, Tilda.

Write me personally about your trip abroad, Sisters, won't you?

Very ahead.

Dear Miss Smart:

Please tell me how to dye a light brown polo cape black.

How is my writing? ZARA

I would not advise attempting to dye your coat yourself. Send it to a competent dry cleaner.

Good.

Her Neighbor's Advice Helped Mrs. Frick

MRS. ADA FRICK
PERRYBURG, OHIO

"YOU can be just as healthy, strong and happy as I am," said one woman to her neighbor after listening to the description of her ailments. "If you will take Lydia E. Pinkham's Vegetable Compound. My condition was very similar to yours, I suffered from those awful bearing down pains, weakness, backache, nervousness and headaches until I could hardly drag around. Today I am strong, well and happy because I followed the advice of a friend who had been greatly benefited by this old-fashioned root and herb medicine."

Nearly fifty years ago Lydia E. Pinkham of Lynn, Mass., prepared from medicinal roots and herbs Lydia E. Pinkham's Vegetable Compound. Its fame has spread from shore to shore. You will now find in every community or neighborhood some woman who has been restored to health by its use, or has some friend who has. Therefore ask your neighbor.

Thousands of unsolicited testimonials such as the following are on file at the Pinkham Laboratory at Lynn, Mass., and prove the merit of this medicine. Therefore no woman should continue to suffer from such ailments.

Mrs. Frick Tells of Her Experience

PERRYBURG, Ohio— I took Lydia E. Pinkham's Veg. Compound because I suffered with pains on my sides all the time. I can't remember just how long I suffered but it was for some time. One day I was talking with a neighbor and I told her how I was feeling and she said she had been just like I was with pains and nervous troubles and she took the Vegetable Compound and it helped her. So then I took and got some and I am really recommending it for it is good. Whenever I see a woman who is sick I try to get her to take Lydia E. Pinkham's Vegetable Compound."—Mrs. ADA FRICK, R. No. 3, Perryburg, Ohio.

CLOSING WAS EXCEPTIONAL

"Laughing Lady" With Ethel Barrymore Is Billed For Faurot Wednesday

"STOCK" COMING

New Orpheum Is Presenting Lewis' International Revue Today

The Faurot season for 1923-24 will come to a close with Ethel Barrymore's performance of "The Laughing Lady." There is a semblance to the parable, "The first shall be last and the last first," for as a climax to an otherwise brilliant season, there could be no more fitting close. She is not alone one of the best loved actresses of the American stage, but she will present one of the eminent dramatists, Alfred Sutro's, latest and best work, "The Laughing Lady." She is amply well fitted to assume the leading role, and it is the consensus of opinion among contemporary critics that she never had a more suitable part than this Suito comedy. During the season there have been many distinguished audiences present at noteworthy productions, but it is safe to say that no more so than will see Miss Barrymore.

Monday and Tuesday the Faurot will be dark. On Thursday afternoon the "White Sister," a picturization of the popular novel will be seen. It will run thru until Sunday evening. This will be a supplementary preliminary to the advent of the Hawkins-Ball stock company which will begin a Summer's run Easter Sunday.

The International Revue will begin an engagement this Sunday afternoon at the New Orpheum. This entertainment is of the musical comedy order with a cast made up of clever comedians, strong vaudeville acts and an abundance of good music, both vocal and instrumental. Aside from this clever company of performers there is a chorus made up of pretty girls, excellent dancers and film singers. Manager Shaw promises that this show will be equal or better than any of the rest of them that have been seen at the popular playhouse this season.

"LAUGHING LADY"

Ethel Barrymore Coming Wednesday Night

Fitting to the close of the most successful season, artistically and otherwise, than Lima has enjoyed, comes the distinguished actress Ethel Barrymore. She is under the direction of Arthur Hopkins, and he will present her in Alfred Sutro's "The Laughing Lady." It was the vehicle for Miss Barrymore for her New York debut, running at the Longacre theatre for six months. Miss Barrymore, during her career has naturally played many parts, and most of them successfully, but in summing up her success in "The Laughing Lady," contemporary writers have given it as their opinion that she does best with this vehicle. It is high comedy, and it is in this particular line that Miss Barrymore is at her best. Her admirers have always delighted in her work along these lines.

Her magnificent performance last spring as Lady Teazle, in "The School for Scandal," along with her eminent uncle John Drew, is still vividly remembered. She had the advantage of an all-star cast in this classic old comedy, but her work shone out with radiance and splendor. She comes of a stock that excelled in just those line of parts, for her Grandmother, Mrs. John Drew was considered the ideal of all American actresses in the part.

"The Laughing Lady," is a play that possesses unusual sparkle and brilliancy. It has for its central figure a society gadfly, who is just emerging from the witness-chair in her own divorce proceedings. At dinner she meets the barrister, who so ruthlessly examined her and determined to even the score by compelling him to succumb to her fascinations, altho he is a married man.

Ethel Barrymore in "The Laughing Lady" at the Faurot Wednesday.

Scene from the "International Revue" at the Orpheum this week.

Her plans go awry, as the barrister falls in love with her and she with him. It is from this that the complications spring thruout the play, but there is an unexpected climax at the end.

FAMOUS "RUBE"

New Orpheum Gets James Y. Lewis and His Big Revue

James Y. Lewis and his International Revue will be the attraction at the New Orpheum Sunday matinee and for the balance of the week. This company comes to Lima following an extended tour thruout the middle west. It played last week in Springfield.

The company is made up of recognized leaders in this class of musical comedy and included in the cast are a large number of vaudeville performers. A mighty good chorus is also claimed for the company and it is boasted as one of the big attractions of the production.

Featured in the cast are besides James Y. Lewis, famous "Rube" character, such players as Conrad Hipp, Al De Clerique, Peggy Williams, the saxophone girl; Alma Mooney, dancer; Etta Hipp and Mae Lewis, also a dancer.

New music, jokes, specialties, costumes and scenery are to be seen with this show. It is asserted, and there will be many novelties put on by the members of the cast.

The company will play the entire week with the usual New Orpheum extra attractions and special matinees, it is announced. Program will be changed Thursday.

ZIEGFELD'S TASK

Keeping 'Follies' Up to Beauty Standard Is Real Problem

The Ziegfeld Follies which will appear at the Victory Theatre, Dayton, for one week, beginning Sunday night, April 6th, has always been known as the offering containing more beautiful young women than any other musical attraction in the world. It may be called, in fact, the hot house of the musical comedy garden in which various flowers and the most fragile femininity are delicately nurtured and cultured until they blossom forth into full fledged stars of the first magnitude.

"But in all the history of the field, I have never relied upon a

At the Royal Today and Tomorrow

single star for success. I have had Ziegfeld Follies," says Mr. Ziegfeld, many stars of whom I have been very proud and while they are with me I am glad to have them, but stars or no stars, for seventeen years the Ziegfeld Follies has gone right on like Tenneyson's brook."

"Someone asked me the other day," he continued, "if I could estimate the number of girls who had applied to me during the past seventeen years of the Follies for engagements with my company. I replied that every year between ten thousand and twelve thousand applied. That would make more than 200,000 girls who have called upon me asking for positions. As a general rule, only about one girl in a hundred ever 'makes' the Follies. The reason for this is that the standards of beauty must be maintained and that it is impossible for me to present a show which does not include the most beautiful girls I can find."

This unparalleled and latest edition is in twenty-four scenes, with the greatest cast in the history of stardom, comprising such stellar names as William Collier, Jimmy Huxley, Martha Lorber, Evelyn Law, Alexander Gray, Dave Jones, Elsa Paterson, Patricia Salmon, Willie West and McGinty, Katherine Littlefield, Kelo Bros., Simon Karavach, Serge Pernikoff, Helen Gates, J. J. Shannon, Anastasia Reilly, Doris Vinton, Naomi Johnson, Hazel Webb, Hazel Jennings and others, together with eighty-four Ziegfeld Beauties and sixteen wonderful Tiller Girls.

The book and lyrics were written by at least a dozen authors and composers.

Production Featuring Lillian Gish Coming to the Faurot

"The White Sister," based on the novel by F. Marion Crawford, and directed by Henry King, opens a three-day engagement at the Faurot Thursday, with Lillian Gish in the leading and titular role.

The production is heralded as one of the most spectacular and romantic photoplays of the year, furnishing fine entertainment. The director has evidently spared no expense in the filming as he has caught numerous scenes in Italy, particularly in the vicinity of Mt. Vesuvius. An eruption of the volcano is a feature of the story.

"The White Sister" is said to register the extreme heights in suspense and pathos in photoplay productions. The divine love of a youth for a maid, a love that is idealized to the extreme and which is eventually blasted, is the foundation upon which the story is built. It is very doubtful whether any other screen actress could have better filled the title role than Lillian Gish.

According to critics, "The White Sister" also discloses the fact that the screen can soon expect another leading man in the person of Roland Colman. He possesses a fine screen personality and a goodly amount of talent, which is brought out in his portrayal. His future on the silver sheet will be observed with interest.

The two principals are supported by Charles Lane, Gail Kane, J. Barney Sherry and a score of players of ability, prominent in theatrical circles in Italy.

MAJESTIC PLAYS

Three Unusual Offerings at The South Side Play House

Three unusually interesting films have been booked for the Majestic screen this week. The first which opens this afternoon is the Paramount production, "Only 38" featuring May McAvoy, Lois Wilson and Elliott Dexter. "Are You a Failure" will be shown on Tuesday and Wednesday and "Soinny" Richard Barthelmess' masterpiece of the screen, closes the week. "Only 38" is different from most pictures in that the story deals with

Two Stars Appear In Sigma Play—Dog Actor Holds Forth at Lyric

NOVARRO HERE

Famous Player Is Quilna Attraction—Majestic Has Three Films

(GERTRUDE GILLHAM)
There seems to be no end of the really worth while motion picture productions that movie house managers have guided to local screens.
Last week brought several entertaining pictures, two of which continue into the new week. "The Huntress" with Colleen Moore, appears for the final times today at the Sigma theatre and "The Gold Diggers" which opened Saturday at the Lyric will remain until Friday. Hope Hampton has the leading feminine role.
An even more pretentious list of attractions has been booked for the current week. Bert Lytell and Blanche Sweet have the featured roles in "The Meanest Man in the World" which opens a five day stay at the Sigma on Monday. It is a film adaptation from the famous stage play of George M. Cohan's in which he personally appeared for over a year in New York. Rin-Tin-Tin, the famous police dog, will be seen in "Where the North Begins" at the Lyric the last two days of the week.
Heralded as one of the outstanding productions of the season is

Bert Lytell and Blanche Sweet in "The Meanest Man in the World".
At the Sigma for five days beginning Monday.

"Thy Name is Woman," which opens this afternoon at the Quilna. Ramon Novarro, whose acting in "Scarabouche," now at the Fauror, will not soon be forgotten, and Barbara La Marr have the principal roles. It will be followed on Thursday by another Metro attraction, "The Fool's Awakening" with Eddi Egan, Harrison Ford and Mary Alden.

"THE HUNTRESS"

Sigma Offering Today—"The Meanest Man" Coming

Today offers photoplay fans the last opportunity to see that unusual western comedy, "The Huntress" at the Sigma theatre. Colleen

Moore and Lloyd Hughes head the cast.
The story centers around a vivacious, care-free white girl who has been reared as an Indian. She learns that she is white and decides to win a white husband by kidnapping a bashful city youth who has come to the country prospecting. Her efforts to hold him and finally to win him, naturally create a series of highly humorous and at times dramatic situations.

One of the thrilling incidents of "The Huntress" is a fist fight which takes place between an ex-puglist and the city youth in a crowded restaurant. There have been several famous screen fights, perhaps the two best remembered were in "The Spoilers" and in "Tolable David." But the fight in "The Huntress" which forms the climax is one of the best of them all. Wal-

Hope Hampton in "The Gold Diggers"—A WARNER BROS.—Classic of the Screen.—
Appearing at the Lyric theatre.

ter Long, famous screen character man, has the role of the ex-puglist. Others in the cast are Russell Simpson, Wilfred North and Saitz Edwards.

Beginning Monday the Sigma will offer "The Meanest Man in the World" with a remarkable cast of players headed by Bert Lytell, Blanche Sweet, Bryant Washburn

and a dozen others of importance. The story which is an adaptation of the famous stage play in which George M. Cohan appeared, deals with the business activities of a young lawyer who simply cannot succeed because he is too kind hearted. He is finally told by his friend to be mean—to look everybody straight in the eye and say no

William V. Mong and Ramon Novarro in a scene from "Thy Name is Woman" at the Quilna.

How the attorney begins this new method of business and how he finds himself unable to live up to the title of "the meanest man in the world" provides some remarkable situations and finally when he is sent to a small town to foreclose a note long overdue, he finds he can never succeed if he must use harsh tactics.
Blanche Sweet makes her return to the silver-sheet in this picture and critics who have seen her portrayal claim she has never appeared to better advantage than in the role of Jane Hudson. Bryant Washburn also has an excellent portrayal in the role of Ned Stevens, the friend of the young lawyer.
"The Meanest Man in the World" which will remain for five days,

BARRYMORE ENDS SEASON HERE

Famous Legitimate Star Brings Winter Feast to a Close

MANY IMPORTANT OFFERINGS

Entire Round of Pleasure Reviewed for News Readers

BY CADJE

The present theatrical season which will officially close with Ethel Barrymore, Wednesday evening, has been unquestionably the most important that Lima has ever enjoyed, for the class of attractions all three takes precedent with cities two, three and even many times the population. The "Faurot" opera house, under the management of W. D. Clark has given to theatregoers the best available in each separate branch of theatricals.

Since the beginning when Nell O'Brien's Minstrels began the season, a number of the most important stars have been booked. These are Chauncey O'Leary, DeWolf Hopper, Nora Hays, Robert Mantell, Al Jolson, Ruth St. Denis and Ethel Barrymore. In music in comedy, in drama the list was intact accord with the best the country affords. Releging hits were included in the list and what a good list it was. When we think of a majority of them, there could not be but a feeling of satisfaction to the most exacting theatregoer. In the musical comedy line such attractions as the "Hoop Show," Al Jolson, Gingham Girl, Wildflower and others, fit among this class of attractions anywhere.

"Don't forget," said a noted manager to the writer, that Lima is on the theatrical map and there isn't an important producing firm in New York that doesn't know it. You'll keep on getting," was his comment. And when we take into consideration that the demand for stellar attractions in the larger cities is far greater than the supply, it does seem that there is more than just luck to the solution.

In a dramatic way, there was "The Fool," a production that did not need to come to Lima as far as patronage was concerned. "Abie's Irish Rose" was in great demand everywhere; "The Cat and the Canary," was just as important, for they were attractions that the whole theatrical public wanted to see. From a classical viewpoint there was, no disappointment for Robert Mantell played Shylock, and was as greatly impressed with Lima as Lima theatregoers were with his superb performance.

WILL SUPPORT WORTHY ATTRACTIONS

It was during a conversation with Al Jolson that the exact opinion of producing managers and stars was impressed on the writer. "Don't think for a minute," said Jolson, "that I underestimate the knowledge possessed by Lima theatregoers as to good and bad shows. You know it depends altogether whether a show in New York runs two weeks or two years on what theatregoers from Lima and the other cities of America think. If the destiny of a performance depends strictly on a New York audience, it wouldn't run two weeks." I watched Jolson in that performance, and I am prone to admit, altho I have seen him many times I have never seen him work harder in his life. He appreciated the splendid reception he got from the audience that jammed the Faurot that night. In the matter of "Blossom Time," which I hardly believe will ever be

Lillian Gish and Ronald Colman in "The White Sister" at the Faurot, four days starting Thursday.

forgotten by those who saw it, there was a double satisfaction in a letter received by Manager Clark, in which the author showed his appreciation of that knowledge of good things Lima people have, when he stated "that it was a great pleasure to him to play again in Lima; the people gave me a reception I shall never forget. It was a great inspiration. My hope is that I may have the pleasure soon again to be with you."

Mantell stated that he was amazed; "I knew," said the tragedian, "the minute I came upon the stage, that my audience was with me." These are the things that count, why really good attractions and great stars like to come here, and the honor is reciprocal and the theatregoers of Lima have given such splendid support. That a why "So This is London: 1st Year; the wonderful Sistine Chapel Choir; Ruth St. Denis and the Swedish Ballet and the best of others have played the Faurot. That is the reason that the very choicest attractions will visit Lima during next season, Greenwich Village Follies, with Gallagher and Shean; Lionel Barrymore, in Laugh Clown Laugh; Passing Show of 1923 Robert Mantell and a list that shall be in keeping with the best that the theatrical market affords.

The best of all is that Lima is on the theatrical map.

CHURCHILL TO RECOMMEND AWARD OF \$60,000 ISSUE

Recommendation that the \$60,000 water main extension bond issue be awarded to the Prudden & Co., Toledo, will be tried Monday night with commissioners by Auditor C. H. Churchill.

Premium of \$2,634 on the entire issue as offered by the Toledo company was \$200 higher than the next high bidder.

The issue pays for water mains on 26 of the 42 streets included in the 1924 improvement plan outlined by City Manager C. A. Bingham.

MANAGER COMPLIMENTED FOR SLOT MACHINE BAN

CLEVELAND. — In his address at the opening of the National Flower Show here Saturday, Governor Donahue complimented City Manager W. R. Hopkins for putting the slot machines out of existence in Cleveland.

"They had but one purpose, to enrich the bank accounts of their promoters," the governor said. "If I could I would replace every gambling device that is in pool rooms and similar places with a basket of flowers," the governor added.

NOVARRO STARS

Two New Metro Productions On Quilna Screen

Two of the most recent Metro productions, "Thy Name is Woman" and "The Fool's Awakening," make up the attractive program at the Quilna for the week starting today. "Thy Name is Woman" which opens a four day stay this afternoon, is just now finishing an extended run at the Lyric theatre in New York, where it has scored a tremendous success. It is regarded as the greatest production that has been made by Frank Niblo, whose "The Three Musketeers," "The Mark of Zorro," "Blood and Sand" and "The Famous Mrs. Fair" stand among the greatest productions of the screen.

The cast is one of real distinction. The principals are Ramon Novarro, fresh from his dazzling success in "Scream of Silence," Barbara La Marr, one of the most beautiful screen stars, William V. Mong, celebrated character actor; Robert Edeson, on a brilliant star on the legitimate stage and Edith Roberts, who had the principal role in "Big Brother." It is evident that Metro has given Niblo every aid in making "Thy Name is Woman" a brilliant success.

"The Fool's Awakening," which opens at the Quilna on Thursday is an adaptation of William J. Locke's novel "The Tale of Trifona" and also boasts a cast that will command attention. The principals are Ed Bennett, Harrison Ford, Mary Haden, and Alec B. Francis, while the supporting cast includes Lionel Barrymore, Harry Northrup, John Sainpolis, Edward Connelly and Alvine Plett.

This program will have the new edition of the Quilna News and a Spat family comedy, "A Political Pull."

EXAM IS REQUIRED

ADA — Every student enrolled in physical education classes at Ohio Northern University has been required to undergo a physical examination to determine what each one needs in the way of physical development.

"GOLD DIGGERS"

Lyric Offers Movie Version Of Belasco Production

"The Gold Diggers," the picture version of David Belasco's noted stage play, is the feature at the Lyric until Friday. It is a Warner Brother production and has as its principal players Hope Hampton, Wyndham Standing, Louise Fazenda and Alec B. Francis. It will be replaced on Friday by a stirring story of the great outdoors, "Where the North Begins," featuring the famous police dog, Rin-Tin-Tin.

"The Gold Diggers" tells how a group of chorus girls, clubbing in an apartment, proceed to extract as much money and other valuables as they can, from the wealthy men of their acquaintance. They go to parties, smoke, dance and enjoy life. Thus things go along until one of the young men falls in love with Violet Dane. This alone would have been enough to upset the tranquil-

ity of things, but to add to the complication, the youth faces disinheritance by his uncle, who detests show girls.

The balance of the photoplay shows how Jerry Lamar, played by Hope Hampton, sets the trap for the rich uncle, inveigles him into visiting her apartment and how he subsequently falls in love with a chorus girl.

"Where the North Begins" is the story of a dog dwelling with a pack of wolves, who suddenly recalls his real descent as he attacks Gabriel Dupre, a trapper left for dead by a gang of outlaws. Gabriel is the victim of a plot at the hands of Shad Galloway, the factor of the Hudson Post, to get him out of the way so that Felice McTavish, Gabriel's sweetheart, will be defenseless. The wolf-dog becomes friendly and is instrumental in saving the girl at a critical point, and demonstrating to Galloway that even a strong arm man must yield to superior brute strength.

Claire Adams plays the feminine lead as Felice, with Walter McGrall opposite her as Gabriel. Others in the cast are Pat Hartigan, Myrtle Owen, Charles Stevens and Fred Huntley.

Keeping steam at work!

CAREY Pipe and Boiler Coverings for industrial applications provide a complete range of heat insulation materials of highest efficiency for all temperatures up to 1000 degrees Fahrenheit.

A few of the Carey coverings we apply are:

- Carey Carocel, for low-pressure steam lines;
- Carey Multi-ply, for high pressure lines;
- Carey 85% Magnesite and Carey Hi-Temp, for super-heated steam lines.

Call on us for engineering information and estimates on your pipe covering and heat insulation requirements. We can bring to your problems when necessary the specialized experience of Carey insulating engineers, and through them, of the Mellon Institute — an industrial service of great value and importance to plant operators in this territory.

We also apply Carey coverings for cold lines.

MISS ALIAS

BY DOUGLAS GRANT

BEGIN HERE TODAY

Sallie Peck, employee of the Fair Deal Five & Ten, quarrels with her policeman sweet-heart, Michael Curtis. At night Sallie goes into the back yard to take down a washing line. When she comes back she finds the girl dead in strange surroundings, hands mysteriously furnished. A French maid named Therese tells her Alvin Copeland and Madeline Copeland, a tall, dark, handsome woman, claim her as her step-daughter. Sallie meets George Wheeler, who claims love for her. She receives to solve the mystery and listens at the door of a room where a conference is taking place. She learns that she is being substituted for the real Alvin Copeland, real victim of the wreck. Michael Curtis calls at Ma Brennan's home and asks Ma many questions.

NOW GO ON WITH THE STORY

"Let's see the card again, Ma, will you?" Mike asked. "I don't begrudge the poor girl anything but I'm curious about her slipping away like that. She was just a girl, wasn't she? Didn't I see she was young?"

Ma Brennan nodded.

"She thought she was, from the slimness of her even in the blanket, and she tottered weak-like she was half runnin', as if she couldn't get in quick enough out of the horror of it all, an' small wonder! No-body seen her go. The card is up there on the shelf in my sewing box, Michael, an' I can give her back her money. 'Twould be Sallie's wish, well I know."

"Miss Bertha Hooper," Mike read. "This isn't a regular visiting card, Ma; it is just a cheap thing printed on one of those little hand-presses like they have out at the amusement park. You'd hardly think a girl who would carry that could afford to throw a couple of fifty-dollar bills around so easy, and why do you suppose she didn't write a word of explanation on it or even her address?"

"What would she be writin' it with, the burnt end of a match?" Ma Brennan demanded. "Twas the only explanation she could make. Leavin' the card with the money showed that somebody's been here an' paid for somethin', so that when I found the clothes gone I wouldn't think a thief had broke in."

"It's hard to tell the ways of Providence, Ma," he remarked. "There's little I can say to you to comfort you now, but you don't know what you have done for me tonight, giving me this look of hair! How beautiful and bright it was, wasn't it? Almost too bright to be natural! I hadn't known Sallie since she was a little girl I would have wondered if maybe she didn't touch it up."

"Take shame to yourself, Michael Curtis, for the thought!" Ma Brennan exclaimed in honest horror. Sallie would have cut it off first, an' well ye know it!"

"I know that," he assented wistfully, and picked up his hat from a chair. "I've got to get on over to Headquarters now, Ma, and see the Chief. You'll try to get a little sleep and take care of yourself tomorrow in case I don't run in."

"You've not got to get back on the job again so soon? I thought the Chief gave you a couple of days more—"

"It isn't certain. Something came up only tonight and I may have to go out of town again. I never can tell how long these trips will take, you know, and of course I can't write but I'll tell Jim Nolan to have his mother come over every day and see that you're not letting yourself break down." He came over to her chair and flung a boyishly affectionate arm about her shoulders. "Ma, I wish there was something I could say to you but—but I can't, only to beg you to be fine and brave, and bear up as well as Sallie herself would expect of you."

"I'll be all right, Michael, and it's good of you to be botherin' about a sad old woman like me!" She reached up and patted his cheek. "You've your work and your life before you, and I've the fight with the railroad company and the insurance people to take up my mind so we'll have to try to go on. I'll be missin' ye but wishin' ye luck if ye have to go."

He kissed her and not trusting himself to say any more, turned and went out past the dark little parlor to the front door. When he had closed it behind him he went slowly down the path to the gate and paused there leaning upon it and looking up and down the straggling lane.

At the right it terminated abruptly at the railroad bridge and only ash-heaps and grimy factories loomed beyond, but to the left after reaching the end of the row of little double houses it dwindled into a mere path skirting vacant lots and bogs to the suburban trolley line.

Mike thrust his hands in his pockets and with lowered head sauntered slowly in that direction. A few lamps still glimmered from the little houses but the ones at the end of the row were deserted and falling into decay and the winding path lay in dense darkness ahead.

After a quarter of a mile, however, the rows of lights marking the trolley line came into view and as the hum of an approaching car reached his ears Mike quickened his pace and finally broke into a run, swinging himself aboard the back platform just in the nick of time.

"Hello, George!" he exclaimed briskly. "You haven't got much of a load going into town this trip!"

The lanky, rawboned conductor followed his glance into the interior of the car, where only a few workmen returning from suburban jobs slouched drowsily in the cross-seats and responded grimly:

"It's been busy enough these last few days, Sergeant! Folks from miles around piled in to see the wreck of the 'Arrow' and we had a time of handlin' the crowds, I tell you! Fiercest thing ever hit Shaftstown! Was you there?"

"Not when it happened," Mike lighted a cigaret but his hand trembled and he forbore to look downward at the cleared tracks gleaming below as they rattled onto the railroad bridge. "Were you on that early shift Tuesday morning?"

"Just a-past here on the incoming trip like we are now, when the crash came!" There was a touch of awe in the conductor's tone. "Pretty near broke every winder in the car and then the explosion followed and before we got up to the town square the glare back of us would've made you think Roundhouse Lane and all the factories near was goin' up in smoke, too!"

"Bet you had a crowd when you started back," Mike observed.

"I'll say I did," his companion acquiesced with emphasis as they sped on toward the lights of the town. "Lot of your boys from the station houses and all the volunteer firemen who couldn't get to hang on to the engines in time. They all got off, tho, at the furthest end of the bridge and out on the meadows beyond Roundhouse Lane, just where I picked you up tonight I got a fare of another sort; first one off the wreck, I guess."

"Injured?" Mike queried with assumed carelessness.

"Well, she limped, and she was shakin' so I could hardly help her aboard and to a seat. I was scared she'd topple over in a faint on my hands but she didn't; just sat there coverin' her eyes as if to shut out the sight of what she's been thru."

"Well, maybe she was old—" suggested Mike tentatively.

"No, sirree!" the other retorted. "She was young and mighty pretty what you could see of her thru that heavy brown veil she had on, but she only shook her head when I asked her if she'd been in the wreck, and was hurt. After a while, when we was gettin' into Kingsville she keed if we was goin' near any other railroad line runnin' into New York, so I put her down to Kingsville station, tho she'd have a couple of hours to wait, and she was limpin' worse than ever."

"Guess you're right, George; she must have come from the wreck," Mike added. "Especially if she had any handbags or anything with her."

"Now I come to think of it she did have a bag—a black one, and real hand one, the brown suit she was wearin' seemed to be kind of shabby. Gettin' off here, Sergeant? Ain't you goin' on to Headquarters?"

"No. Got to see Joe a minute." He waved a friendly hand as he swung off the step, leaped in front of a lone jitney and entered the corner drugstore. Hurrying to the prescription desk at the rear, he waited until the baldheaded, bespectacled little man behind it had wrapped up a small box of powders for a fussy old lady and rung up the amount on the cash register.

"Hello, Joe!"

"Did you want to see me, Mike?" the baldheaded little man beamed expectantly upon him and lifted the leaf in the counter. "Come into the back room."

He was proud of the fact that the young sergeant considered him the best chemist in town and had helped him out on more than one case but now Mike laughed rather forcedly as he followed him into the musty little back room and shutting the door drew from the envelope the lock of curling, golden hair.

"Nothing of much importance, Joe, I'm just kind of suspicious about a certain lump and I thought I'd see what you thought of her hair."

"Humph!" Joe pushed his spectacles far down on his nose and examined the strand while Mike waited with tense nerves and pounding heart for the verdict. "Mighty pretty and fine as silk but it isn't natural. Shouldn't be surprised if it was light, anyway, but it's been touched up a mite, peroxide and then something to take the glitter off."

"You're sure of it, Joe?" Mike's voice was suddenly husky, and his eyes blurred but the chemist, intent upon his examination did not look up.

"It's been bleached!"

"Not only that, but the curl's not natural, either. Look's as if she'd had one of those things they call a permanent wave put on it two or three months ago and it had commenced to come in straight, but of course I couldn't tell how long ago unless I knew how close this was cut off to her head. She's had it bleached over again tho, since. Guess that's all I can tell you about it unless you care to leave it here—Why, Mike!"

(Continued in Our Next Issue)

TODAY'S PATTERN

THE SEASON'S POPULAR STYLE
4488-4418. For sports wear, for business or street the costume here portrayed will be ideal. White flannel with binding of black suede would be very striking and "sporty." Serge with a simple finish of machine stitching and with collar and cuffs of linen or organza make a neat business suit in this style.

The blouse pattern is cut in 6 sizes: 34, 36, 38, 40, 42 and 44 inches bust measure. The skirt is cut in 7 sizes: 16, 18 and 20 years for Misses, (25, 27 and 29 inches waist measure) and 31, 33, 35 and 37 inches waist measure for ladies. It is a wrap model and measures 2 1/8 yards at the foot. To make this costume for a medium size requires 4 3/4 yards of 40 inch material.

Two separate patterns mailed to any address on receipt of 10c for each pattern in silver or stamps.

THE TANGLE

An Intimate Story of Innermost Emotions Revealed in Private Letters

LETTER FROM LESLIE PRESCOTT TO LESLIE PRESCOTT, CARE OF THE SECRET DRAWER

I wonder, little Marquis, if in your life you had your soul so broken that you felt all dead inside of you, and yet all the while you went about, doing your accustomed tasks, talking to your friends, smiling when they smiled, sympathizing with them in their troubles which seemed to you trivial, when compared to your own.

I keep telling myself that I am very foolish. I keep saying to myself what I said to Jack, which was to the effect that if a woman insisted upon the single standard she would never have a husband to make her miserable; but that don't seem to help me one bit, little Marquis.

Jack tries to be so sweet to me, but every time he calls me "darling," every time he says some complimentary or caressing thing to me, the face of that piquant, clever little French woman rises up before me, and I know that everything he is saying to me now, he has said before to her.

Strange as it may seem, I do not grieve so much because of this thing of which Jack has told me. I grieve more because I can't seem to forget. I grieve more because the caressing touch of Jack's hands to me now hurts, the soft tones of his voice seem harsher than when he spoke to me immediately before.

I think it's my pride that's hurt, little Marquis. I wanted to feel that Jack had never loved any other woman but me; and he must have loved Paula, because, even now when he speaks of her, a tender, admiring look comes into his eyes. Besides, he has never paid any attention to little Jack since he told me.

Is it because he feels that he cannot lavish on him the tenderness and affection that he did before, without hurting me? Or is it because he feels that the baby is a constant reminder to me?

I wish I were not so questioning, so retrospective, but I cannot help it. I have not tried to see Ruth; in fact I have avoided her since I returned. Yesterday she called me up by telephone and wanted to know if I were ill. I told her no, but I was coming down to see her as soon as possible. Ruth, who has a quick sense of understanding, did not say she was coming up to see me.

She knew something was bothering me, something I did not want to talk about to any one. Impulsively I said to her:

"Ruth, dear, I do not know what I would do without you. You are the

one woman to whom I can say 'I do not want to see you or any one else' with the full knowledge that you will understand and leave me to work out my great problem alone, standing by ever ready to help me if I should ask for help."

"Some day I may tell you, dear, all that is troubling me. Until then will you please remember that I love you better than any other woman I know, and consider you my greatest friend."

And that blessed Ruth, little Marquis, answered:

"Yes, I am always here when you want me, for without you, dear, I do not think I could have gotten thru my trouble, which was greater than anything that could come to you; for I know, Leslie, that Jack loves you devotedly."

TOMORROW: Telegram from Sydney Carter to John Alden Prescott. Carter arrives home.

MOTHER!

Child's Best Laxative is "California Fig Syrup"

Hurry Mother! A teaspoonful of "California Fig Syrup" now will thoroughly clean the little bowels and in a few hours you have a well playful child again. Even if cross, feverish, bilious, constipated or full of cold, children love its pleasant taste.

Tell your druggist you want only the genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother, you must say "California." Refuse any imitation.

Liver Trouble Now a Known Cause of Premature Old Age

Medical science knows that poisonous waste in our bodies would actually cause death in a few days if not eliminated by Nature's processes. Because it destroys these deadly poisons, the liver is our most important organ—the body's wonderful purifier.

Science now understands how the liver prevents the formation of body poisons that cause diseases of the heart, kidneys, blood vessels and are chiefly responsible for premature old age.

When the liver becomes weak, the poisons are sucked up by the blood and health is broken down. Guided by this knowledge, medical science has found the only way to help the

liver create the purifying bile without which no human can live. Physicians know that the liver cannot be regulated by drugs, but a safe Nature substance has been discovered which will at once increase the vital bile supply. The discovery is purified ox gall.

Get from your druggist a package of Dioxol. Each tablet contains ten drops of purified ox gall. In 24 hours the poison toxins will be removed. Your liver will be regulated. Blood purification will begin. Sallow skin will clear. You will feel so much better you will know you have found the cause of your ill health. Dioxol tablets are harmless, tasteless and cost less than two cents each.

Beauty

A Gleamy Mass of Hair

35c "Danderine" does Wonders for Any Girl's Hair

"Girls! Try this! When combing and dressing your hair, just moisten your hair brush with a little "Danderine" and brush it through your hair. The effect is startling! You can do your hair up immediately and it will appear twice as thick and heavy—a mass of gleamy hair, sparkling with life and possessing that incomparable softness, freshness and lustrance."

While beautifying the hair "Danderine" is also toning and stimulating each single hair to grow thick, long and strong. Hair stops falling out and dandruff disappears. Get a bottle of delightful, refreshing "Danderine" at any drug or toilet counter and just see how healthy and youthful your hair becomes.

Give Us a Hearing

Find out what the world's largest quality car producer has to offer before deciding on any fine car

WE seek the favor of a comparison—ask that you look at a Studebaker before buying a rival car. We'll rest our case on what you find.

We are producers of quality cars on a quantity basis. We use the finest materials that money can buy. Our labor is the cream of the industry. We work in \$50,000,000 plants—75% built since the war—which house the finest precision machinery the world affords.

By producing in great quantity, we cut manufacturing costs. It costs us less to build a quality car, and what we save goes to you. Under ordinary manufacturing conditions Studebakers could not be sold within 25% more to twice their price.

All any maker can put into his car are fine materials and fine workmanship. And these are put in every Studebaker. Studebaker makes the broad statement that no finer car can be built, no matter what you pay. Remember this when weighing any car against a Studebaker.

All Studebaker models are equipped with Timken bearings. There are few cars in America, regardless of price, which equal ours on this point. In our Light-Six, for instance, we put more Timken bearings than are used in any competitive car, within \$1,500 of its price.

We are one of the very few builders, either in Europe or America, using crankshafts machined on all surfaces. It costs us \$600,000 a year to give you this. But it results in that

each one is small, there is great opportunity for economies and savings.

World's finest coachmaking

We build Studebaker bodies in the internationally famous Studebaker body building plants—for 72 years known all over the world as builders of the superlative in fine vehicles.

No other body maker has the experience of Studebaker. No other the Studebaker traditions to inspire him.

THE HAWISHER MOTOR CAR CO.
406-8 W. Market St. Phone Main 2200

THE WORLD'S LARGEST PRODUCER OF QUALITY AUTOMOBILES

ESTATE OF "OLD DAN" CLOSED UP

Small Fund Sewed in Coat Is Barely Sufficient

DEATH OF MISER RECALLED

Cincinnati Woman Wants to Buy Dog He Saved

OTTAWA—Affairs of the estate of Daniel Shaffer, 68, Ottawa resident, who gave his life for a rescue March 1, have been closed up by the administrator, Nick E. Miller, former Putnam resident.

Cost of burial of "Old Dan," as he was most generally referred to, reached \$210.

It was necessary for his son, Giant Shaffer, of Cincinnati, to pay \$25 for a burial lot in Monroe cemetery, near Cincinnati.

This took \$225 of the money "Old Dan" had saved with which to meet expenses of his funeral.

He had accumulated \$24 and had this amount of money sewed in the pocket of the coat he wore continuously for many years.

His dogs and chickens were given to relatives so as to have appraisement, according to Miller.

The few dollars left of his small savings will be required to meet court expenses of administering the estate.

Shaffer, who had lived alone for many years, chose only the companionship of his chickens and dogs, the latter of whom in winter slept alongside of him, while his chickens perched on the head and foot rail of the bed in which he slept.

"Old Dan" while crossing the tracks of the B. & O. with his pack of dogs, got four safely across the tracks. One Illinois fellow ran back. The train approached from the south, but the dog leisurely devoured a piece of meat.

"Old Dan" hurried back to rescue him. He succeeded in giving the animal, but was unable to get to safety before the train struck him.

The accident occurred at the Second crossing, but the train was a Detroit, Toledo & Ironville passenger, being derailed, because of a wreck near Ottawa.

A Cincinnati woman, who declared she saw the picture of the dog in The Lima News, wrote to Marshall H. M. Cahill, desiring to purchase the dog. She said the animal looked much like one she owned in days gone by and she wanted to buy it to replace her former pet.

Mayor W. A. Beutler, in answering the letter, told her the dog had found a home with some of "Old Dan's" relatives and was not for sale.

ESTATES CLOSED UP THRU MANY REALTY TRANSFERS

OTTAWA—Real estate transfers the last half of the week were few in Putnam-co.

Of the number, the majority closed up the estate of Emily Nichols, of West Leipsic, who died possessed of lots 126 and 128 in West Leipsic.

Transfers recorded were:

Margaret and George Haskell to Elmer Rank, undivided one-eighth of lots 126 and 128, West Leipsic, \$1.

Edward Nichols, Anna and Harry Nuppy and Maud and Frederick Bolton to Elmer Rank, undivided one-eighth of lots 126 and 128, West Leipsic, \$1.

Mattie and Daniel Leatherman to Elmer Rank, undivided one-eighth interest in lots 126 and 128, West Leipsic, \$1.

Thomas and Jessie Nichols to Elmer Rank, undivided one-eighth of lots 126 and 128, West Leipsic, \$1.

John A. Wannemacher to John M. and Mary E. Schumaker, 23 acres, Section 30, Monterey-tp., \$5,750.

George C. and L. Alecia DeVore to Edward E. DeVore, 80 acres, Section 1, Blanchard-tp., \$1.

Mary Ann Wolfe to Walter S. Wolfe, 60 acres, Elia, Houtzen, Leroy, Maud L. Neiswander, John S. Wolfe and William S. Wolfe, lot 58, east Leipsic, transfer by inheritance.

IONEER RESIDENT OF DELPHOS TAKEN BY DEATH

DELPHOS—Isaac Ludwig, pioneer resident of Delphos and vicinity, died at his home three and one-half miles northeast of Delphos at 4 a. m. Saturday. Death resulted from infirmities due to old age.

He was born at Springtown, Pike-county, on Jan. 2, 1842, and was married to Saphronia Harbaugh in December 1862.

Surviving are three sons, Thomas Ludwig, of Lafayette, Omer, of Marietta and Guy, of Ft. Wayne.

Ludwig was a Civil War veteran. He served a term in Libby prison ten captured by the rebels. He was a member of the G. A. R. and a high Arch Mason.

Funeral services will be held at the Presbyterian church Tuesday at 2 p. m. and interment will be at Walnut cemetery.

ADA SOCIETY

Mrs. John Russell was called to rest Tuesday on account of the illness of her daughter, Mrs. S. E. Straut, 70.

Rev. L. D. King, of Van Wert, and son-in-law, Mr. Thurston and wife, their daughter, Mary, visited this week at the home of Almira King, Mrs. Ella King Davis.

Mrs. C. Roy Pease is making an extended visit with relatives in Cincinnati.

born to Prof. and Mrs. Michael Szulka, a daughter, Marie, at St. Ann's hospital, Thursday, March 25.

Mrs. Daisy Becker of Peru, Ind., is visiting at the A. N. Wisely home.

Mrs. Earl Boyle and children of Toledo, and Mrs. Stockton of Cincinnati, visiting their mother, Mrs. Margaret McDowell.

Mrs. Lela Dora Shabbaugh returned to her home in Crestline after spending a few days at the parents' home.

Prof. Fred Killeen has been ill with pneumonia for several days. Mrs. Virginia M. Feeny, of Lansing, Mich., who has been visiting her daughter, Mrs. Killeen for several weeks, suffered a heart attack this week.

Mrs. Cora Shuster, Ray Thompson, sons, Leroy and Joseph, Mrs. Wal-Clark of Ada, Mrs. Mary Ferguson and Mr. and Mrs. Roy Johnson family of Lima, took dinner Sunday with Mr. and Mrs. Justin Shuster, Lima.

Now is the time to have your car repaired. We guarantee all work and our prices are reasonable.

WELSHY ELECTRIC CO.

OTTAWA SOCIETY

Mrs. David N. Powell extended the hospitality of her home to members of the Research club, Monday night, entertaining most delightfully at her home. A book review, "The Alaskan," was presented by Miss Edith Wilkins. Mrs. Edward Frick favored with piano numbers.

At the close of the program, Mrs. Powell served supper. The final meeting of the club will be held next Monday night at the home of Mrs. H. O. Graham.

Mrs. G. F. Zeller extended the hospitality of her home to the Frigid and Pleasure club, Tuesday night. Roll call was responded to by quotations from miscellaneous authors. Readings were given by Mrs. Pearl Allen, Mrs. Frank Botkin and Mrs. H. M. Summers.

Vacation pleasures were recounted while Mrs. Zeller served a collation. The club will hold the final meeting on next Tuesday, which will take the form of an April Fools' party at the home of Mrs. Pearl Allen.

Mrs. Burton McClellan entertained the Glads Emulation club, Wednesday night. Mrs. E. J. Beckman and Mrs. Stewart Smith were invited to enjoy the meeting with members. In the contest submitted, Mrs. Lawrence Laidie was successful. Mrs. McClellan served supper at the close of the program.

An April Fools' party, which will take the form of a novel surprise, is being planned for Tuesday night by the remaining half of the members who did not entertain in the winter at the annual dinner.

The final meeting of the Ladies' Centennial club for the year was held Monday night with Mrs. J. H. Eckelberry. Mrs. E. H. Eastman gave a paper on "Poetry of Today." Mrs. J. P. Bailey spoke on "My 1 Am a Christian." Mrs. C. E. Tupper gave a reading, "Teach Me to Read."

Following the serving of a supper, members bade each other goodbye until the reunion of the club in September.

Members of the Ladies' Aid society of the Presbyterian church and guests enjoyed the playlet, presented at the meeting of the society Thursday afternoon in the church parlors. Hostesses were Mrs. Julius S. Ogan, Sr., Mrs. G. E. Deane and Mrs. Henry Little.

Leroy and Frank Wilson presented a trombone and cornet duet, accompanied by Mrs. Frank Wilson, on the piano. Tea was served at the close of the program.

Mrs. Dora Thapp most delightfully entertained the Altus club, Tuesday night, with a homecoming party at her home on E. Third-st.

Roll call was responded to by current events. Mrs. D. R. Hinkle gave a paper on "Immigration, the American Element." Mrs. William E. Smith had for her subject "Habit and Penetration of Our Native Trees." Mrs. N. F. Miller gave a paper on "History of the Transportation Industry." Mrs. Anna Long spoke on "Insects, Beautiful and Beneficial."

Mrs. Thapp served a delicious supper, while

guests enjoyed discussion of anticipated vacation times. Mrs. Samuel Kerr will entertain next Tuesday night at the closing meeting of the year.

SHANK REWARD IS DEMANDED

Brother of Murderer Asks Court For \$1,000 Offered by County

OTTAWA—Claims for \$1,000 reward, offered by the Putnam-co commissioners for the capture of Charles Shank, triple slayer of Mrs. William Tenwalde, Olive and Lawrence Tenwalde, was made in court action filed Saturday by Walter J. Shank, of Cuba, west of here.

Shank is a brother of Charles Shank. He sets forth in his appeal from the action of commissioners, that on September 2, the commissioners offered a reward of \$500 for the capture of Shank.

His petition says that when Shank could not be found, on September 12, an additional \$500 was allowed. Shank visited his brother's home on the night of September 12 and offered to surrender, after roaming thru woods and corn fields for a period of 10 days.

He was half starved and had had but little sleep. Shank communicated to Charles Shank's expressed desire to officers who made the arrest the following day.

Shank was convicted in November, last, of second degree murder of Mrs. William Tenwalde, wife of a farmer residing five miles west of Ottawa, and mother of Olivia Tenwalde, with whom Shank was a lover and who was the mother of his child.

Later, Shank pleaded guilty to second degree murder for the killing of Olivia Tenwalde and Lawrence Tenwalde, the latter a cousin of Olivia.

Shank was sentenced to serve a life term in the Ohio penitentiary, without hope of pardon or parole, and was taken to that institution soon after Thanksgiving.

Shank's brother relates that on March 21, while the commissioners were in special session, he presented the claim for the reward, but he charges that the commissioners voted to disallow it and to reject the claim.

He therefore asks judgment for \$1,000 against the commissioners.

Commissioners at one time announced no part of the reward would be paid, as Shank was not captured in compliance with the terms under which the reward money was offered.

RIVER IS RISING

Blanchard Threatening—Nearing Railroad Bridge

OTTAWA—Rapid rise of the Blanchard river and of streams in Putnam-co have caused much apprehension, with the heavy rains of Friday.

The river was but within a few feet of the railroad bridge and was rapidly rising.

The lowlands surrounding the river are flooded and for a distance of a quarter of mile from the river the nation presents a scene of a large lake.

Other smaller streams in the county are overflowing the banks and are hurrying to bigger streams to find an outlet.

EXPANSION OF LIBRARY PLANNED IN PUTNAM-CO

OTTAWA—Ways and means of operating and making possible a success of a small library, was outlined by Miss Julia Wright Merrill, representing the state library, at a meeting of the Putnam-co library association held here Wednesday.

More than half a dozen townships were represented at the meeting. Reports for the month of March showed that more than 800 books were distributed, mostly to juveniles.

Plans were formulated for a benefit party, to be held April 12 at the armory. Mrs. A. V. Karsting is chairman of the arrangements and soon will name members of other committees to assist.

Plans are being made to put books in newspapers of general circulation in the county, from which patrons of the library may select by telephone and the book will be forwarded by parcel post. In the same manner return to the association may be made.

Mrs. E. L. Frey is chairman of the library association; Mrs. Iva Cummer, treasurer; Miss Eissner, A. Meyer, secretary and Mrs. G. F. Zeller, Mrs. Willard Bennett and Mrs. John T. DeFord, members of the executive committee.

OTTAWA—The Putnam Co. of Putnam Co., Ohio, is now open for business.

Medicine vs. Milk

MEDICINE VS. MILK, is the way one big New York Life Insurance Company heads an ad they are now running in various magazines.

They state that more than \$219,000,000 a year, at wholesale prices, is spent for medicines in the United States, and that the consumer pays at least twice that amount for these same medicines.

They further say "If, instead of rushing off for a bottle of Dr. Bunkum's Tonic to brace us up, we would go to Nature herself for the greatest of all food-tonics—milk—we would be a different lot of men and women. It milk were announced for what it really is. The greatest body-builder and health restorative in the world—people would flock to buy it."

Drink More Milk and Save Money

"Milk is an ideal food for all ages—not just a pleasant drink, or food merely for children. It looks simple, but it is the most complex food in the world—liquid meat, sugar and fat with mineral salts and life-giving vitamins added. A quart of milk contains the same "energy" value as 8 eggs, or 3 pounds of potatoes, or 7 1/2 of a pound of lean beef.

"Save on other things, if you must, but not on milk."

Get it pure and wholesome, produced on our own farms, processed through our own factory, and delivered direct to you. Phone Main 4808 for immediate and prompt delivery.

COUNTY ACTS ON BOND SALE

Construction of Elida Bridge Awaits Reception of Bids

ROAD TO BE STRAIGHTENED

Other Highway Improvements Are Planned by Commission

Final resolution approving the sale of bonds to pay the county's share of the cost of constructing the Elida bridge and approaches, was approved by the county commissioners Saturday.

The county bonds amounting to \$45,700 were sold to the state industrial commission at Columbus. Total cost of the bridge will amount to \$75,700, according to an estimate prepared by Charles Ash, state resident engineer.

Bids for the construction of the bridge and paving the approaches to connect with paved sections of the Harding highway on either side, are to be taken by the state highway department April 11 or 12, commissioners were informed Saturday.

The bridge is to be constructed of steel reinforced concrete. The present bridge and road will be used, it is planned, during construction of the new.

ROAD STRAIGHTENED In order to straighten the road, and eliminate two bad curves, the location of the new bridge will be up stream from the old structure.

Contractors will be required to complete the bridge and pavement this year, according to Ash.

Advent of spring marks the beginning of work on about nine miles of state roads in the county let during the fall and winter.

Work is to commence soon on a mile section of the Harding highway east of Delphos, and a mile on Spencerville rd extending from Woodlawn cemetery to McBeth park.

Work is also to commence soon on approximately seven miles on Bellefontaine rd from Lima to Westminster.

County commissioners are also

planning to place a top surface of hot mix asphalt on a mile section thru Gomer and three streets in Delphos. Bids were put to last fall. A stone base of macadam is to be built on the Elida Hollow rd from the end of West-st to Gomer, it is announced.

A rug, formerly the property of Henry Ford, has been sent to the Oriental Rug Co. of this city, to be dyed, an official of the company announced Saturday. The present owner, being acquainted with C. H. Crockett, Jr., of the rug company sent it from Chicago.

GET RID OF YOUR WINTER'S COUGH WITHOUT DELAY

At this season of the year, it is dangerous to permit a cough or cold to cling to you. Without proper care and attention, a cough or a cold will get such a hold upon your system that it may remain with you through the spring months and well into the summer.

Eckman's Alternative, the calcium tonic, benefits the entire system, and, as a result, it is easier to combat and get rid of the trouble. Thousands of persons in all parts of the country have spoken in the highest terms of what Eckman's Alternative has done for them. In many cases declaring that they do not dread the colds of winter. In a letter recently received from St. Mary's Mission, Omak, Washington, was the following paragraph:

"We don't dread the winter colds so long as we have Eckman's Alternative at hand to build up our little ones and rid them of their coughs and colds."

Get a bottle today and ask your druggist for our booklet, or let us send you a copy.

Eckman Laboratories, 22 N. 7th Street Philadelphia.

New System of Fat Reduction

Here's a new way for all fat people to laugh together at that old bugaboo—Obesity. The saying that "there is nothing new under the sun" does not now apply to fat people any more. Here is something new for them—a new sensation, a new pleasure, a new and graceful figure, easily found by anyone who is passing beyond the limits of slenderness. Everyone has heard of the Marmola Prescription; that harmless combination of fat-defying elements perfected by one of the foremost physicians. Now, from the same high authority, comes another idea—the idea of condensing these same, pure, harmless ingredients into a pleasant little tablet. Taken after eating and at bedtime, they help the stomach to dispose of all the fatty foods, converting them into compact, solid flesh, muscle and energy, without dieting or exercising. Marmola Prescription Tablets regulate the entire system—do for you what bodily exertion, self-denial and absurd greases and salves cannot do, and the fat once routed, is gone for good. You can prove all this at a trifling cost. Marmola Prescription Tablets are sold by all druggists or sent post-paid by the Marmola Company, 4612 Woodward Avenue, Detroit, Mich. A case—sufficient to bring results—is but one dollar.

For all kinds of electric fixtures and supplies, think of us—SWEENEY ELECTRIC CO. 110 E. Market St.

SALE OF SALES

40---FORDS---40

Tourings Roadsters Coupes Sedans Trucks

These cars must go this week without fail, and they will go, if those of you, who are figuring on buying a car this Spring will visit our Show Room. You cannot help but realize that we are offering dollar for dollar, for every car in our show room.

Enjoy the pleasures of driving without the financial worryment it sometimes necessitates. You can do this with one of our cars, for we have terms that will suit you, and your pocketbook.

These cars have all been re-possessed from the original owners who were unable to keep up their payments. You get the advantage of what they have paid.

Don't fail to visit our show rooms today, for at such prices these cars are bound to go.

You can rely absolutely on any used car you buy from us. You can rest assured it is O. K., as we wouldn't put it in our Show Rooms.

SALE STARTS AT EIGHT-THIRTY MONDAY MORNING USED BUT NOT ABUSED ---

Realtors

403 Steiner Bldg.

Three Money Making Opportunities

We have a good clean stock of groceries located in a small town in one of the best farming communities in Ohio. The room is about 25 feet by 80 feet with nice plate glass front, full basement, and living rooms can be arranged on second floor. The rental is exceptionally low and a live wire can do a wonderful business. Gasoline station in connection. The owner of this store has decided to get out of the retail business and offers you an unusual opportunity and might consider a trade on real estate.

We also have a dandy little hardware store located in a good town. This is an old stand and has been in same location for years, and consists of only shelf hardware. No farming implements. The room is about 20 by 100 feet and located on the Main Street right in the center of the business district. A wide awake hustler can certainly do a fine business in this stand. The owner will exchange for good real estate.

A fine big club house about 15 miles out, fine location for dancing parties and chicken dinners. Eleven rooms up stairs and fine dance floor in dining room and living room, large enough for 50 couples. This place is thoroughly modern, electric lights, gas, and kitchen is equipped with stoves, cooking utensils, dishes and silverware to serve about 100 people. If you are looking for an opportunity to make money off of tourists, and chicken dinners, don't pass this up. Eleven acres of land and fine little grove of trees, river view frontage. Can be exchanged for Lima property.

GRAND AVENUE

Now is the time to buy a home on Grand Ave. No section of the city has ever developed so rapidly. This development means an increased value in property and will make a profit for the property owners. We have under construction five new homes on the South side of Grand between Metcalf and Baxter. These houses are not only different in interior and exterior, but afford many new features and convenient arrangements. These houses represent the greatest variety to choose from in the city. Also a new home at 466 W. Grand.

Call for appointment and let us show you a house which will make you an ideal home.

Priced right. Terms reasonable.

Why Not Reduce Your Living Expenses?

A large part of the money you earn is spent for food. Why not reduce part of this expenditure by having your own garden and raising a few chickens.

We have a proposition to make to you whereby you can do this. We have just completed a 5-room bungalow in City View 1. This lot contains about one-half acre. This would give you enough ground to have a fine garden, and also plenty of room for the raising of chickens.

By paying us \$300.00 down and then \$30.00 a month you can become the owner of this nice little suburban home. Call us for an appointment and we will gladly show this to you.

KITE KONTEST TO BE BIG EVENT

Final Plans Will Be Completed at Monday Meeting

Arrangements for the annual Kite Club Kite Contest, which will probably be held at Fautot park, and is scheduled to take place on Saturday, April 26, will be completed at a meeting of the committee in charge at the Elk Club at noon Monday. It has already been decided that nearly \$200 in prizes will be awarded to winners of 8 events.

Any Allen-go or Lima boy under 18 is eligible, and the only requirement is that contestants make their own kites.

Eight events make up the program and prizes will be given for the largest, smallest, prettiest, oddest, highest flying, strongest pulling and box kites. There will also be a kite battle, which will conclude the program.

R. A. Heltbrink is chairman of the committee which is to meet Monday. Other members are: Walter Kotter, Francis O'Connor, Walter DeWeese, William Warren, James Joliva, A. Simmons and J. H. Wallace. Three judges will probably be selected Monday.

This is the third year for the contest.

YE OLDEN DAYS

River Used for Baptizing, Historical Society Told

That in 1885 the Ottawa river under the old Main-st bridge was used as a skating and swimming pond and a place for baptismal services by several of the Lima churches was an interesting feature of the paper, "Do You Remember?" given by Mrs. Florence Fullerton at the regular monthly meeting of the Allen-go Historical society Friday night at Memorial hall.

Harold Cunningham, city commissioner, reported that a big log had been taken from Main-st north of the square when the sewer was being dug there last week. The log is one used in the construction of an old corduroy road early in the life of the city. The society will make an effort to get it for its collection.

Mrs. Fred Seymour, assistant secretary of the society, handed in her resignation Friday night to become effective May 15. She gave as a reason the need for rest.

"My Rheumatism is gone—"

There's glorious joy in knowing that more Red-Blood-Cells stops Rheumatism, and that S.S.S. builds Blood-Cells!

"There are thousands of you men and women, just like myself, slaves to rheumatism, muscle pain, joint pains, and horrible stiffness. I had

S.S.S. thoroughly rids the body of Rheumatic Impurities.

the wrong idea about rheumatism for 15 years. I didn't realize that increasing blood-cells had the effect of completely knocking out rheumatic impurities from the system. That is why I began using S.S.S.! Say what you will, I never knew such startling results were possible. Well, folks, besides knocking out my rheumatism it gave me back some of the strength I used to have way back! I've got a better color in my face, my appetite is dandy. I don't use my crutches any more. "I'm walking around straight-up on two young legs!" S.S.S. makes people talk about themselves the way it builds up their strength. By building blood-cells it builds nerve strength for young folks who ought to have more, and for older people who have little. It stops pimples, boils, blackheads, eczema, chases away blood impurities. You can always rely on it. Start S.S.S. today for that rheumatism. You'll feel the difference shortly. S.S.S. is sold at all good drug stores. The large size is more economical.

S.S.S. makes you feel like yourself again
